This Section presents the justification book organization and the exhibit requirements for submission to Congress. Examples of budget exhibits can be found in Section 0304.

030302 Submission Requirements

For designated exhibits, the Military Departments and applicable Defense Agencies will update the SNaP immediately upon completion of the Program Budget Decisions and budget lock by the Department. In addition, the Military Departments and applicable Defense Agencies shall provide the USD(Comptroller) with a revised narrative justification for their respective programs reflecting any changes from the program and budget review. The SNaP system will reformat the data into congressional justification exhibits, which can be printed out by the respective Components and included in their justification materials.

030303 Organization of Justification Books

A. Justification Books will be organized into separate books for each appropriation. The only exceptions to organizing justification books into separate books for each appropriation are for the United States Court of Military Appeals for the Armed Forces and the Office of the Inspector General appropriations. These should be included in the same book as the Defense-Wide. The Defense Health Program (DHP) will be a separate justification book. The procurement and RDT&E DHP budget activities will follow the organization prescribed for the procurement and RDT&E appropriations in Chapters 4 and 5, respectively. (See Vol. 2B, Chapters 4 and 5)

B. Justification books for the Active Component of each Military Service should be organized into two volumes (in separate books) as follows:

Volume I - "Justification of Estimates for Fiscal Years BY1 and BY2"

Volume II - "Data Book"

Reserve and National Guard Components should combine the above volumes into one book for each Component.

C. The justification books for the Operation and Maintenance, Defense-Wide appropriation will include a classified volume in addition to the two volumes required for the active components.

D. Volume I - Justification of O&M Estimates for Fiscal Years BY1 and BY2. The Operation and Maintenance (O&M) Justification Books will be submitted on an operations basis to include active military force personnel strength, Reserve and National Guard personnel strength, and civilian personnel. (Related dollars financed from the active and Reserve military personnel appropriations, however, should not be included.) The content and arrangement of exhibits for the operations accounts are indicated at the end of this section. Applicable exhibits for the Reserve and Guard Component operations accounts will be consistent with the active operations accounts. Exhibit formats are provided in Section 0304. Separate volumes for active and reserve component operation appropriations will be submitted. Funds for the National Foreign Intelligence Program (NFIP), Tactical Intelligence and Related Activities (TIARA), or Joint Military Intelligence Program (JMIP) will be specifically identified. Justification classification will not exceed that required for other operations funds. (See section 0304, below)

E. Volume II - Data Book. The Data Book will include summary and special interest exhibits as well as the facilities Sustainment, Restoration and Modernization (SRM), and Demolition exhibits. The content and arrangement of exhibits for the operations accounts are included at the end of this section.

Two copies of the FSRM OP-5 and FSRM PBA-7 exhibits will be submitted to the Directorate for Military Construction, OUSD(C), P/B, Pentagon, Room 3D840 for review and approval.

F. Additional Accompanying Exhibits. Although not to be included in any of the Justification Books submitted to Congress, the exhibits at the end of this section are required to be submitted to the OUSD(C) P/B Directorate for Operations and Personnel, Pentagon, Room 3D868, simultaneously with the submission of the other budget justification material. **These exhibits are not to be included in Justification Books submitted to the Congress.** Examples are provided in Section 0304 (O&M), Chapter 13 (Defense Environmental Restoration Program), or Chapter 19 (Other Special Analyses). (See Vol. 2B, Chapters 13 and 19) (See section 0304, below)

G. O&M Overview. The Operation and Maintenance Overview exhibits (PBA-xx) are required for submission to the OUSD(C) P/B Directorate for Operations and Personnel, Pentagon, Room 3D868. Specific suspense dates will be furnished in the annual budget justification call memorandum supporting the President's budget request. The parent service is responsible for ensuring that all required data including Reserve Component appropriations are submitted.

Exhibit formats are provided in Section 0304. Each exhibit must provide narrative data to explain price and program changes between all fiscal years displayed. In addition, Components are responsible for cross checking data among the exhibits to ensure data provided is consistent among all PBA exhibits and all other exhibits supporting the President's budget request, including the backup exhibits. (See section 0304, below)

Two copies of each exhibit are required and will identify the Component, exhibit number and title, date prepared, and name/telephone number of the responsible point of contact for the exhibit. The exhibits will be consolidated at the Operation & Maintenance title level for printing and submission to the Congress. The Defense Agencies should provide as a minimum the PBA-19 and the PBA-20 exhibits and address resource requirements in one or more of the major mission categories as appropriate.

INSTRUCTIONS FOR PREPARATION OF OP-5

1. Agencies/Activities are required to submit this exhibit at the lowest level of their budget structure. The purpose of the OP-5 is to provide a summary of and justification for changes in the level of resources required for each SAG.
2. Each of the O&M appropriations listed below, will be supported by OP-5 Exhibits.
 - Operation & Maintenance, Army, Army Reserve, and Army National Guard
 - Operation & Maintenance, Navy and Navy Reserve
 - Operation & Maintenance, Marine Corps and Marine Corps Reserve
 - Operation & Maintenance, Air Force, Air Force Reserve, and Air National Guard
 - Operation & Maintenance, Defense-Wide
 - Defense Health Program
 - Former Soviet Union Threat Reduction
 - Office of the Inspector General
 - United States Court of Military Appeals for the Armed Forces
 - Wildlife Conservation, Etc., Military Reservations
 - Overseas Humanitarian, Disaster, and Civic Aid
 - Support of International Sporting Competition, Defense
3. The OP-5 provides essential information for justification of the OSD and President budget estimates. The "Reconciliation of Increases and Decreases" portions of Section III should identify what changes are occurring and provide programmatic reason for the changes and explain why they are necessary.
4. The FY PY estimate column of the OSD submit should reflect actual data through the first three quarters plus a realistic projection for the remaining quarter. For the PB submit, the FY PY column will reflect actuals and agree with the data reflected in the certified DD Comp 1002 report for September.
5. The "Reconciliation of Increases and Decreases" section will be included in the OP-5 for both the OSD budget submission and the President's budget submission. Reconciliations will show all changes from fiscal year to fiscal year and, for the current year, a track from the estimate requested in the previous President's budget. Specifically display:
 - The FY BY estimate included in the previous President's budget submission to the current FY CY estimate included in this submission,
 - The current FY CY estimate to FY BY1 estimate reflected in this submission,
 - The FY BY1 estimate to the FY BY2 estimate included in this budget submission.

INSTRUCTIONS FOR PREPARATION OF OP-5

6. Performance criteria must be provided for each OP-5 at the subactivity level and should support the dollar amounts being requested in the subactivity. Performance criteria for some subactivity groups are specified in the attachments to the OP-5.
7. Personnel summaries are required for each subactivity group and for each Defense Agency.
8. Classified information will be eliminated from all O&M justification books except for Defense Agencies.

For the changes from the FY CY to the FY BY1 and from the FY BY1 to the FY BY2, use the current estimate in this submission.

* The O&M budget is generally stratified into three levels: Level 1, Budget Activity (BA); Level 2, Budget Activity Group (BAG); and Level 3, Subactivity Group (SAG) (also referred to as O-1 line items). The O&M budget structure for some Defense Agencies/Activities stops at the BA or BAG level. The Defense Agencies/Activities are required to submit this exhibit at the lowest level of their budget structure.

C. Reconciliation of Increases And Decreases: Provide a trail of changes from the previous President’s budget request for the current fiscal year in this submission to the appropriated amount for the current FY CY in this submission to the current estimate for FY CY in this submission; from the FY CY current estimate to the FY BY1 estimate; and from the FY BY1 estimate to the FY BY2 estimate. Provide a single entry in each year for price changes. Itemize and justify the major program changes in each year (**provide the baseline in dollars to which the increase or decrease applies**). Such justification should clearly explain **programmatic** changes in resource levels including why increases are required or decreases occur. Additionally, the narrative justification should relate cost to force structure changes, performance criteria, workload and manpower data, as well as identify the impact if requested changes are not funded. The DoD Components should report in thousands.

In the reconciliation of changes from the previous President’s budget request for the FY CY to the estimate for FY CY in the current submission, the DoD Components should include the following adjustments:

- **Distributed Congressional Adjustments:** Adjustments that Congress specifically makes to the President’s budget request. These adjustments must match the Appropriation Conference Report table and the FY CY Rebaseline Report (for Active Military Components only) at the subactivity group level.
- **Undistributed Congressional Adjustments:** Adjustments outlined on the tables contained in the statement of managers accompanying the appropriations conference report. The Components must use discretion as to how these adjustments are applied to minimize negative impacts on force readiness. These adjustments must match the Appropriation Conference Report table and the FY CY Rebaseline Report at the appropriation level and subactivity group level, respectively.
- **Adjustments to Meet Congressional Intent:** Adjustments that are required in order to align funding for a congressionally approved program into the proper budget activity and subactivity in order to carry out the intent of the Congress. These adjustments must match the FY CY Rebaseline Report at the subactivity group level.
- **General Provisions:** Adjustments directed by the Congress in appropriations law, the distribution of which is not explicitly stated. The OP-5 should separately display each General Provision adjustment. These adjustments must match the FY CY Rebaseline Report at the subactivity group level.
- **Fact-of-Life Changes:** The Operation and Maintenance (O&M) fact of life changes are programmatic, intra-appropriation adjustments made by DoD Components to address significant, unforeseen operational readiness issues within the following categories:
 1. Functional Transfers – Funding realignments to reflect a transfer of function, responsibility, or duty from one major command to another within each Military Department or Defense Agency. These adjustments do not change the purpose for which the funds were appropriated.
 2. Technical Adjustments – Accounting adjustments to properly align funding with the appropriate O&M subactivity group (SAG) where costs are actually accrued and executed. These adjustments do not change the purpose for which the funds were appropriated.

Exhibit OP-5 Detail by Subactivity Group
(Page 2 of 10)

3. Emergent Requirements – Adjustments to funding requirements resulting from changes in policy, legal direction, or other unforeseen (e.g., operational readiness, health or safety, etc. related) events that occurred after the submission of the President’s Budget.

These adjustments must not change the congressional priorities and are subject to congressional review as reported in the Rebaseline Report. The Rebaseline Report, as amended by any congressional action, will be used to develop the DD 1414, Base for Reprogramming Actions. See Volume 3, Chapter 6 regarding the policies for the reprogramming of O&M funds subsequent to the establishment of the base for reprogramming actions.

Performance Criteria and Evaluation Summary: . The Performance Criteria and Evaluation Summary (OP-5, Part IV) must provide supporting detail sufficient to demonstrate how the budgeted resources for each subactivity group contribute to the Department's mission. The Components must provide meaningful performance and work load data by SAG for each year FY PY, FY CY, FY BY1, and FY BY2, where appropriate. Performance criteria must be displayed for each subactivity group. The goal is for the performance criteria to justify the budget request. *If no performance criteria is provided, then a statement must be included explaining why there is no performance criteria.*

The House of Representatives Report (Report 108-106, page 303) on the National Defense Authorization Act for Fiscal Year 2004 directed the Office of the Secretary of Defense (Comptroller) and the service's assistant secretaries of financial management to improve the current performance criteria to reflect measurable metrics. In response, the Department modified the performance criteria for some SAGs supporting the O&M and DHP justification materials and reported the improvements in a report to the Congress in January 2004 and the FY 2005 President's Budget submission in February 2004. The Components must continue to report these improved performance measures in the Performance Criteria section of the OP-5 justification book. The following subactivity groups have specific performance criteria required.

Flying Hour Program (Attachment 1)

Ship Operations (Attachment 2)

Land Forces (Attachment 3)

FSRM (Attachment 4)

The following programs also have specific performance criteria required (See attachments 1-4 to the OP-5 in the FMR):

Explanation of Performance Variances

These performance metrics will be used to focus on the overall performance of the health benefit plan offered to DoD beneficiaries. Measuring performance to goals allows the DHP to track internal effectiveness as well as effectiveness relative to other health plan benefits in the private sector. Results of these performance metrics will be reported annually in Defense Health Program O&M Overview Exhibit.

Questions	Ans.	Explanation	Evidence/Data
Is the satisfaction with the TRICARE Health Plan increasing, decreasing, or staying the same?	Increasing = 10, Steady = 5, Decreasing = 0	An increase in the satisfaction with the TRICARE Health Plan indicates that actions being taken are improving the overall functioning of the plan from the beneficiaries perspective. Goal is to improve overall satisfaction level to that of civilian plans using a standardized survey instrument.	Satisfaction with the TRICARE Health Plan is related to two primary functional areas: timeliness of claims adjudication and access to medical services for beneficiaries. Improvements in either of these functions generally improves the measures, where as problems will cause a decline.
Did the DHP achieve its inpatient production targets (number of Relative Weighted Products (RWP's))?	At or above target = 10, = or > 95% target = 5, Below 95% target = 0	Achieving the production targets ensures that the initial plans for allocation of personnel and resources are used appropriately in the production of inpatient workload	Failing to achieve production target suggests that facilities may not be appropriately using their resources and may signal need to align assets to other areas within the facility or other facilities that are not at capacity. Surpassing the target signifies opportunities to achieve saving through recapture of purchased care workload.
Did the DHP achieve its outpatient production targets (number of Relative Value Units (RVU's))?	At or above target = 10, = or > 95% target = 5, Below 95% target = 0	Achieving the production targets ensures that the initial plans for allocation of personnel and resources are used appropriately in the production of outpatient workload	Failing to achieve production target suggests that facilities may not be appropriately using their resources and may signal need to align assets to other areas within the facility or other facilities that are not at capacity. Surpassing the target signifies opportunities to achieve saving through recapture of purchased care workload.
Is the productivity of the Primary Care Providers increasing, decreasing, or staying the same?	Increasing = 10, Steady = 5, Decreasing = 0	In order to run a premier Health Maintenance Organization (HMO), the critical focus area is primary care. The primary care provider frequently represents the first medical interaction between the beneficiary and the HMO. In this role the primary care provider is responsible for the majority of the preventive care to keep beneficiaries healthy and away from more costly specialty care.	This metric looks at the complexity of care and the number of patients seen by the primary care providers each day, with a goal of increasing the complexity and/or number of patients seen each day by the provider. As more care is provided by the direct care facilities, there is better utilization of the assets, and the average cost per encounter will decrease. Goal is to increase productivity to levels comparable to the civilian sector while still maintaining readiness.

<p>Is the Medical Per Member Per Year (PMPY) cost growth rate at or below private sector health care plan rate increases?</p>	<p>At or below Nat'l Rate = 10, Up to 105% of Nat'l Rate = 5, Above 105% of Nat'l Rate = 0</p>	<p>The medical cost per member per year looks at the overall cost of the Prime enrollees for the DHP. This tracks all costs related to care delivered to enrollees. The objective is to keep the rate of cost growth for the treatment of TRICARE enrollees to a level at or below the civilian health care plan rate increases at the national level.</p>	<p>The cost has multiple components that all must be operating properly to effectively deliver the appropriate health care services to the enrollee. This measure incorporates the cost of producing the care in the direct care facilities, as well as issues of utilization for both direct care and purchased care. If the cost to produce the individual units of care in the direct care system is high, then the cost per enrollee will increase. Similarly, if the enrollees receive high numbers of encounters, then the cost will also increase. The objective is to properly manage both the production of care in the direct care facilities, and the utilization of health care services for the enrollees to effectively keep the enrollee healthy.</p>

To the extent that specific exercises have not been approved at the time of the budget submission, estimate total program levels. Estimated amounts should be distributed between transportation and other costs, as applicable, and should be related to estimated work load. Explanations of changes in both costs and work load are required between the FY CY and FY BY1 and between the FY BY1 and FY BY2. Exhibit OP-8 Part 1, Civilian Personnel Costs

CIVILIAN PERSONNEL COSTS
OP-8 Instructions

Separate OP-8 exhibits must be prepared for PY, CY, BY1, BY2 for each Military Department in total and for each appropriation/fund in which civilian personnel are funded. Each Defense Agency, including those Defense Agencies that have only RDT&E funded civilian personnel must also provide a separate exhibit. If a Defense Agency has civilian personnel financed in more than one appropriation/fund then a total for the Defense Agency must be provided.

The same level of detail will be reflected for direct funded and reimbursable funded civilian personnel.. For each fiscal year covered by the budget submission, a “direct funded” section , a “reimbursable funded” section, and a “total (direct + reimbursable)” funded section will be included.

OP-8 Automated Exhibit. *A new system that interfaces with the Comptroller Information System is being developed to generate the OP-8 exhibit. Further guidance will be provided as this system is developed. The OUSD(C) analyst will send out an Excel template with the new OP-8 format prior to the budget submission. This Excel template will be used parallel to the new system that is being developed to ensure that accurate data is available. Once the new system is implemented and tested, the Excel template requirement will be deleted. The new data submission process will be through the Program Resources Collection Process (PRCP) System.*

To calculate the required rate data, use the formulas displayed on the OP-8 exhibit. Show the average rates for Basic Compensation, Total Compensation, and Compensation and Benefits. Also show rates reflecting total variables and benefits as a percentage of basic compensation.

End strength onboard as of September 30 vice end strength authorizations will be displayed for all beginning and ending end strengths. The beginning end strength must agree with previous FY’s September 30 end strength. For the PY supporting the FY BY President’s budget request, the end strength data must agree with the SF-113A, Monthly Report of Federal Civilian Employment, provided to OPM to report military functions employment levels as of September 30.

In accordance with OMB Circular A-11, full-time equivalent (FTE) employment is the total number of hours (worked or to be worked) divided by the number of compensable hours applicable to each fiscal year. FTE is synonymous with workyear.

Total full-time equivalents must agree with the amounts reflected in the Comptroller Information System (CIS).

A new category of US Direct Hire personnel has been added for Highly Qualified Experts as authorized in Section 9903 of title 5, United States Code (U.S.C.), as enacted by section 1101 of the National Defense Authorization Act for FY 2004, P.L. 108-136. The total number of highly qualified experts DoD-wide may not exceed 2,500 at any one time. The Deputy UnderSecretary of Defense (Civilian Personnel Policy) will manage allocation reserves and approve cross leveling of allocations.

CIVILIAN PERSONNEL COSTS

OP-8 Instructions

(continued)

In accordance with the Federal Employees Part-time Career Employment Act of 1978 (Public Law 95-437), part-time permanent employees are counted on a full time equivalent basis, i.e., an individual working 30 hours a week becomes .75 of an FTE. There is no adjustment for other part-time or intermittent employees - these employees would be counted on an individual basis not on a fractional basis.

All Benefits for Former Employees must be reported under the Object Class 13 sections (D5. for direct funded and R5. for reimbursable funded). Voluntary separation incentives must be reported in Benefits for Former Employees (Object Class 13).

Do not include overtime workyears in FTE totals. The FTEs on the OP-8 are for straight time workyears only.

FTEs (direct and reimbursable) in the OP-8 exhibits must agree with the FTEs reported in the OMB galleys used for the printed budget. (OMB Circular A-11.)

Direct hire end strength data on the OP-8 must agree with data provided on the September 30th supplement to the SF-113A report. This supplement is entitled, Report of Part-Time Permanent Employees on a Fractional Basis. Indirect hire end strength data must agree with the Indirect Hire supplement to the September 30th SF-113A report.

The OP-8, Part 2, Reimbursable Civilian Personnel Costs will provide reimbursable sources by appropriation, and by Component/Agency.

An automated submission for the OP-8 Exhibit is also required. See section 030201 for both the OSD/OMB budget submission and the FY BY1/BY2 President's budget request.

Department of Defense Education Activity (DoDEA) will submit separate OP-8 exhibits for: Department of Defense Dependents Schools (DoDDS) and DoD Domestic Dependent Elementary and secondary Schools (DDESS), in addition to providing a consolidated OP-8 exhibit for the total Department of Defense Dependents Education (DoDDE) program. For the required automated submission, DoDEA is only required to submit the consolidated DoDDE OP-8 exhibit, not individual exhibits for DoDDS and DDESS.

Instructions for Preparation of the OP-8 Part 2 Reimbursable Pay

This is mandatory for the Military Departments and the Defense Agencies. If a Service shows that civilian pay is to be reimbursed from a Defense Agency that does not submit this form, then the agency coordination must be shown on this form. This is required only for the Program and Budget Review Submission (BES).

Each appropriation account in the prior year (PY), current year (CY), biennial budget year (BY1), and biennial budget year (BY2) for which civilian pay is reimbursed must identify the following in thousands of dollars:

On line 1, total civilian pay *.

On line 2, total reimbursable pay *.

On line 3, the amount of line 2 that is reimbursed within the account.

On line 4, the amount by account of line 2 that is reimbursed from accounts within the Service or Defense Agency. The sum of all accounts must equal the total intra service.

On line 5, the amount by account of line 2 that is reimbursed from other Services or Defense Agency accounts. The sum of all accounts must equal the total inter service.

On line 6, the amount of line 2 that is reimbursed from all other sources. The sum from all accounts must equal the total all other.

On line 7, the total civilian pay that is reimbursed to other Services or Defense Agencies **.

Notes:

* Lines 1 and 2 **MUST** agree with the totals reported by the Service or Defense Agency on the OP-8 and the sum of lines 3 through 6 of this must equal line 2.

** Any amounts identified on line 5 **MUST** appear on line 7 of the reimbursing Service or Defense Agency submission of this exhibit.

**ANALYSIS OF CHANGES IN FULL-TIME EQUIVALENT (FTE) COST
INSTRUCTIONS**

1. The intent of the OP-9 is to identify the factors that have an impact on changes in average salary and average FTE cost from fiscal year to fiscal year.
2. Prepare separately for each appropriation and Fund account for U.S. direct hire, classified and wage system, and Foreign National Direct Hire (FNDH). Complete amounts and rates for WS, etc., as in SES/GS column.
3. All end strength will be displayed as actual or planned to be onboard as of September 30. Do not use end strength authorizations.
4. Cost, FTEs, and end strength should be consistent with those shown on OP-8, Analysis of Civilian Personnel Costs.
5. Show each classified pay raise in separate stub.
6. Data is to be reflected at appropriation or account.
7. The “Average Basic Annual Salary” for a FY is computed by dividing the “Basic Compensation” total by the number of straight time workyears.
8. The “Overall Average Annual Salary” for a FY is computed by dividing the “Total Compensation” (Object Class 11) by the number of straight time workyears.
9. The “Average FTE Cost” for a FY is computed by dividing “Total Compensation and Benefits” (Object Class 11 and 12) by the number of straight time FTEs.
10. The OP-9 will be prepared for both the Budget Submission and the President’s budget. However, for the latter, the OP-9 will be submitted separately to OSD and will not be included in the congressional justification material.

Footnotes

- 1/ Reflect as % rate of basic compensation.
- 2/ Express as decimal to five places. Develop effective pay raise as ratio of No. of applicable days to total compensable days in year times pay raise percentage. Identify computation in footnote.
- 3/ Show computation - derivation of rate.
- 4/ Provide an explanation if the rate is different from the previous fiscal year rate, e.g. changes in overtime rate, changes in health benefits, FERS, etc.

 Reconcile and explain in footnotes differences between Autumn Load and "Cadet/Midshipman End Strength" reflected here and in the FYDP update.
 "Prep School Load" is to be a forecast of average onboard students on a "best estimate" basis (specify formula).

Instructions for Completing the Weapon Systems Readiness-Flying Hour Summary

- 1) For Army, Navy and Air Force, provide the funding level--by Active, Reserve, and Guard--for the Flying Hour Program (FHP) by SAG, PE, Treasury Code and weapon system type. The funding levels reported here should be the same as those reported in Budget Exhibit OP-20.
- 2) Provide Narrative in a Word Document that discusses reasons for cost growth from the PB 03 position for any major weapons systems whose cost per flying hour increased more than 10 percent. Discuss any accounting changes in the flying hour program made since the PB 03 position.
- 3) For Navy, provide a list of Program Elements included in each of the following: TACAIR/ASW, Fleet Training, and Fleet Air Support

Definitions:

Organization: The Military Departments, All components

Appropriation: Treasury Code, Defined set of four-digit numeric codes from the Comptroller that identifies resources by type, organization and component.

OP-20 Flying Hours Summary (Continued)

SAG: Sub-Activity Group, budget term denoting groupings of resources

Army SAGs: 111, 112, 113, 114, 121, 135, 311, 321, 322, 423, 434, and 441.

Navy SAGs: 1A1A, 1A2A, and 1C1C

Air Force SAGs: By appropriate SAGs.

Program Element: Identify the PE containing the weapon system described by the detail.

Weapon System Type: Provide Type/Model/Series detail for the weapon system described by the detail.

Weapon System Detail:

Quantity-Identify the number of weapon system type used to determine flying hour program funding

Flying Hours: - flying hour per Aircraft per Month, required and funded

Utilization Rate:

Crew Ratio: - number of crews funded per weapon system

Funded: Identify direct funding level for Fuel, DLRs, Consumables, and Indirect funding for Contract, Maintenance and Other OPTEMPO.

Army -- See definition of Indirect OPTEMPO in Notes section below.

Navy--Special Interest Codes

Air Force--Consumables (General Support (GS) + System Support (SS))

Total TOA Required: Provide total TOA required to meet the flying hour requirement

Notes:

- 1) Indirect OPTEMPO is the portion of the Army's total OPTEMPO that is structure based, or those costs that are based on the number of personnel supported rather than the costs that vary directly with training activities/events (called Direct OPTEMPO). Some examples of Indirect OPTEMPO costs include organizational clothing and equipment, civilian pay, and contract logistic support. If it is not possible to report Indirect OPTEMPO costs by PE and weapon system, report total Indirect OPTEMPO costs for the Army flying hour program and include a narrative in a word document explaining how this number is achieved and what steps will be taken to provide more detailed data in the next POM submission
- 2) For each PE/Treasury Code/SAG combination, the sum of DLRs and Consumables will be compared with the O&M FYDP Expense Aggregate, Repair Parts, for the same combination.
- 3) For each PE/Treasury Code/SAG combination, the Fuel entered will be compared with the O&M FYDP Expense Aggregate, Fuel, for the same combination.

INSTRUCTIONS FOR OP-24

Emergency and Extraordinary Expense Limitation

A. Purpose

1. This section provides guidance for the submission of Exhibit OP-24 (Emergency and Extraordinary Expense Limitation) and the quarterly emergency and extraordinary expenses expenditure report required by section 127 of Title 10, United States Code.

2. This section supercedes OASD(C) memorandum, 14 August 1975, subject: *Quarterly Reporting of Emergency and Extraordinary Expenses*, and OASD(C) memorandum, 6 August 1976, subject: *Quarterly Reporting of Emergency and Extraordinary Expenses*.

B. Submission Requirements

1. General. In the annual DoD appropriations acts, Congress provides the Secretary of Defense, secretaries of the military departments, DoD Inspector General, and the US Court of Appeals for the Armed Forces, the authority to make obligations and expenditures for emergency and extraordinary expenses. These authorities are provided in terms of dollar limitations and are available for the fiscal year in which they are provided in the DoD appropriations act. Defense agencies, the office of the Secretary of Defense, the office of the Joint Chiefs of Staff, and Combatant Commands are allocated (usually via a Deputy Secretary of Defense memorandum) a portion of the Secretary of Defense's annual emergency and extraordinary expenses authority.

The use of emergency and extraordinary expenses authority is limited to those expenditures which cannot be anticipated or classified, or are not specifically appropriated for such purposes, and includes expenditures for emergent confidential military requirements and official representation activities.

In order to strengthen the management of, and budgeting for, emergency and extraordinary expense authority, and continue to comply with 10 USC 127 for the submission of required reports to Congress, it is necessary to improve the emergency and extraordinary expense data collection process. Therefore, the following guidance is provided:

2. OP-24

a. This exhibit will be submitted by each military department and Defense activity that requires emergency and extraordinary expense authority, or authority to expend funds for official representation activities, for both the OSD budget review and the President's budget submit. In addition to the budgetary data, the OP-24 must include a full and complete narrative justification to support the request.

b. If more space is required, the justification material may be continued on a second page, or additional information may be attached to OP-24, as appropriate.

Exhibit OP-24 Emergency and Extraordinary Expense Limitation
(Page 1 of 4)

c. The Defense components that submit an OP-24 with only the budgetary data, but inadequate or no narrative justification risk not receiving any, or significantly reduced, emergency and extraordinary expense authority.

d. For the President’s budget submission, the OP-24 should be submitted concurrently but separately to OUSD(C) Operations and Personnel Directorate (Pentagon, Room 3D868).

3. Quarterly Reports

a. 10 USC 127 requires the Secretary of Defense to submit a quarterly report of expenditures made under the authority of this statute. (Although Congress recently changed the quarterly reporting to an annual submission, quarterly inputs are still required for management purposes.)

b. The categories of expenditure for reporting the quarterly emergency and extraordinary expenses were defined in the 14 August 1975 ASD(Comptroller) memorandum, and are shown below (Mapping and Charting Activity has been changed to Geospatial Intelligence):

*Emergency and Extraordinary Expenses
Expenditures through _____*

	<u>Obligation</u>	<u>Expenditure</u>
1. Cryptologic Intelligence	x	x
2. HUMINT	x	x
3. Counterintelligence and Investigative Activities	x	x
4. Scientific and Technical	x	x
5. Intelligence and Management Support	x	x
6. Geospatial Intelligence	x	x
7. Attaché Activities	x	x
8. Tactical Intelligence	x	x
9. Other Intelligence *	x	x
10. Representation Allowance	x	x
11. Criminal Investigations	x	x
12. Other Non-Intelligence Activities *	<u>x</u>	<u>x</u>
Total	xx	xx

* “Other” categories should be specifically identified with their related expenditures in separate lines below lines 9 and/or 12.

c. The quarterly expenditure amounts reported are expenditures made against recorded obligations for the fiscal year being reported. If current fiscal year expenditures being reported are expenditures made against prior year obligations, provide a separate expenditure listing for each fiscal year for which expenditures in the current fiscal year are being reported. The quarterly expenditure amounts will be on a cumulative basis for the fiscal year for which the expenditures are being reported.

d. In addition, commencing with the first quarter of FY 2005, the Defense components shall also report to the Office of the Under Secretary of Defense (Comptroller) the obligation amounts made against the emergency and extraordinary expense authority for the fiscal year being reported.

e. The military departments, DoD Inspector General, and the US Court of Appeals for the Armed Forces shall submit quarterly reports of all emergency and extraordinary expense obligation and expenditures to the Office of the Under Secretary of Defense (Comptroller) no later than 31 days following the close of the quarter being reported.

f. Defense agencies and other DoD activities that receive their emergency and extraordinary expense authority from the Secretary of Defense (usually via a Deputy Secretary of Defense memorandum) shall continue to submit their quarterly expenditure data for official representation activities to the Director of Administration and Management no later than 25 days following the close of the quarter, in accordance with DoD Directive 7250.13 (Official Representation Funds). Defense agencies and DoD activities must also include their obligation data for official representation activities, in addition to the expenditure data, in their quarterly submissions to the Director of Administration and Management.

g. Relative to the emergency and extraordinary expense expenditures for confidential military purposes, Defense agencies and other DoD activities, including the Washington Headquarters Services, that receive their emergency and extraordinary expense authority from the Secretary of Defense, shall submit their quarterly obligation and expenditure report for confidential military purposes directly to the Office of the Under Secretary of Defense (Comptroller) no later than 31 days following the close of the quarter being reported.

INSTRUCTIONS FOR COMPLETION OF OP-32

- (1) Enter the applicable component, i.e., Army, Navy, Marine Corps Reserve, Air National Guard, etc.
- (2) Enter the fiscal year for which this exhibit is being prepared.

NOTE: A separate exhibit should be submitted for each O&M appropriation for the current year (CY), for biennial budget year 1 (BY1), and for biennial budget year 2 (BY2). This exhibit should be prepared at the appropriation level for the President's budget.

- (3) Enter the prior year (PY), current year (CY), biennial budget year 1 (BY1), or biennial budget year 2 (BY2), as applicable.
- (4) For the CY exhibit, amounts entered in this column should agree with the prior year actual costs as shown in the prior year column of the applicable budget submission. For the BY1 exhibit, these amounts should agree with the far right hand column of the CY exhibit. For the BY2 exhibit, these amounts should agree with the far right hand column of the BY1 exhibit.
- (5) This column should show the rate (percent) of price growth for various items. The general price escalation indices prescribed by OSD (as provided by OMB) should be used for items 416, 417, 507, 679, 725, 771, 913-915, 920-925, 927-989, and 998. Other price growth rates may be used for these items when actual experience supports a rate of increase different from that prescribed For the OSD/OMB submit. In those instances, supporting documentation for the rate used should be provided. If the rate is approved during the budget review, the revised rate may be used in the President's budget. To the extent that a separate rate of increase is used for any portion of a line item, for example, Equipment Maintenance by Contract, the applicable item should be subdivided into appropriate subcategories for each separate rate of increase used. The rate of price change for lines 401, 402, 411-415, 502-506, 601-673, and 701-721 should agree with applicable rates approved by OSD. Applicable rates of price growth, as prescribed by OSD, or as estimated and justified, as appropriate, should be shown for all items where there is a price change. The rate of price growth included in the President's budget will in all instances reflect the rate of increase approved during the OSD budget review.
- (6) The amount shown for each appropriate line (exclusive of line 991) in the Foreign Currency Rate Difference column will reflect the difference in the budgeted foreign currency exchange rates between the two years. For the prior and current years, the budgeted foreign currency exchange rates are the exchange rates that have been approved for recording obligations during execution. If the current year execution rates have not yet been established by the Congress in time for the budget submission, the foreign currency exchange rates reflected in that fiscal year's President's budget request will be used – unless changed by subsequent guidance from the OUSD(C). For the biennial budget years, the budgeted foreign currency exchange rates are the exchange rates reflected in the OUSD (C) budget call memorandum for the budget submission or in the PBD issued during the budget review in the formulation of the President's budget request. (Note: Variances from the budgeted rates will be reflected only on line 991. These variances do not enter into the calculation on any of the other lines.) The column total, including line 991, will reflect (1) for the PY to the CY: the difference between prior year actuals and the current year budgeted rates, (2) for the CY to the BY1: the difference between budgeted rates in each year, and (3) for the BY1 to the BY2: the difference between budgeted rates in each year. If transfers are approved for the current year, the column total will reflect (1) for the PY to the CY: the difference between PY actuals and CY anticipated expenditures and (2) for the CY to the BY1: the difference between the CY anticipated expenditures and the BY1 budgeted rates. No foreign currency rate difference will be shown for Defense Working Capital Fund Purchases and Travel or Transportation for AMC, MSC or MTMC. Only in unusual circumstances should an amount for foreign currency rate difference shown for other travel and/or transportation costs. (See end notes for further discussion of foreign currency entries.)

Exhibit OP-32 Summary of Price and Program Change
(Page 7 of 12)

INSTRUCTIONS FOR COMPLETION OF OP-32 (CONTINUED)

- (7) The price growth column should show the amount of price growth for various items. **Where a percent increase by line item is shown in column 6, the amount included in column 7 will be the sum/difference of the previous fiscal year's program amount (column 4) and the foreign currency rate difference amount (column 5) times the percent shown in column 6.** The amount of the price growth will be consistent with the rate of change prescribed by OSD. The price increase for all items should be the additional/reduced funds, as a result of price changes, that would be required to accomplish the previous year's program at applicable fiscal year rates.
- (8) Enter the amount of program growth for each item. Program growth is to be priced in current year dollars for the current year exhibit, biennial budget year 1 dollars for the biennial budget year 1 exhibit, and biennial budget year 2 dollars for the biennial budget year 2 exhibit.
- (9) Enter the sum of (4), (5), (7) and (8) for each item.
- (10) Subtotals should be included in (4), (5), (7), (8) and (9) for Civilian Personnel, Travel, Defense Working Capital Fund Supplies and Materials Purchases, Defense Working Capital Fund Equipment Purchases, Other Defense Working Capital Fund Purchases, Transportation, and Other Purchases, as applicable.
- (11) Program amounts for Civilian Personnel compensation should be consistent with amounts shown in both the object class distribution reflected in the Program and Financing Schedules for Object Classes 11, 12 and 13 (Direct Obligations only) and in the OP-8 Exhibit, Civilian Personnel Costs (Direct Funded), Chapter 3 of the Financial Management Regulation for the applicable fiscal year. Payments made to the Department of Labor for expenses associated with employee's disability compensation are included in Object Class 12. Change in the number of compensable days per fiscal year will be reflected as program growth, not price growth. The annualization of the prior year's pricing changes (i.e., the previous fiscal year's pay raise), merit pay, bonuses, FERS participation, etc. will be reflected as changes in price growth. (See Vol. 2A, Chapter 3)
- (12) Program amounts for travel should be consistent with amounts shown in Object Class 21 (including subclasses), for the applicable fiscal year.
- (13) AMC, MSC, and MTMC costs displayed for items 624, 653, 701, 702, 703, 705, 706, 707, 708, 711, 714, 715, 716, 717, 718, 719, 720, 721, 725, and 771 should include all purchases from these transportation funds. Foreign Currency Notes

- A. The Total for Foreign Currency Rate Difference (Column 2) must reflect the difference between:
1. PY to CY: Prior year actuals and current year budgeted rates or anticipated expenditures in the current year if transfers have also been approved for the Current Year. (For the latter, individual line items in column 2 (except for line 991) will reflect the difference in budgeted rates and line 991 in column 2 will reflect the transfer amount.)
 2. CY to BY1: Current year budgeted rates or anticipated expenditures in the current year if transfers have also been approved for the current year, and biennial budget year 1 budgeted rates.
 3. BY1 to BY2: Change in budgeted exchange rates from biennial budget year 1 to biennial budget year 2.
- B. Individual line items in Column 2 (except for line 991) must reflect the difference in program costs that are caused only by a difference in budgeted foreign currency exchange rates between fiscal years.
- C. Line 991 - Foreign Currency Variance
1. Prior Year (PY) to Current Year (CY)
 - a. PY column equal Realized variance (DD Comp(M) 1506 Report 30 Sep).
Column 2 equal Reverse the realized variance amount in the PY column.
CY column equal zero
 - b. If transfers have been approved in the CY,
PY column equal Realized variance (DD Comp(M) 1506 Report 30 Sep).
Column 2 equal Reverse the realized variance amount in the PY column and add the transfer amount approved for the CY to determine the total.
CY column equal the transfer amount approved for the CY.
 2. Current Year (CY) to Biennial Budget Year 1 (BY1)
 - a. If the budgeted rates change between the CY and the BY1 and transfers from the Foreign Currency Fluctuations, Defense (FCF,D) appropriation are not reflected in the budget, then the CY column, Column 2 , and the BY1 column for line 991 are all zero.
 - b. If budgeted rates change between the CY and the BY1 and the FCF,D transfers have been reflected in the budget for the CY, then the CY column for line 991 will reflect the value of the transfers and Column 2 for line 991 will reflect the reversal of the transfers. The BY1 column for line 991 will be zero.

Military MWR Category A -- Mission Sustaining Programs

Military MWR Category B -- Basic Community Support Programs

Military MWR Category C -- Revenue-Generating Programs

TDY Lodging -- Temporary Duty (TDY) Lodging is official travel quarters for TDY personnel

PCS Lodging -- Permanent Change of Station (PCS) Lodging is official travel quarters for PCS personnel and their families and normally provides some type of kitchen facilities.

The most current version of this exhibit will be found at this site.** Once loaded the data will be available in the Operations & Support Data Center. Program/Budget data displays will be produced through the Data Center. Questions regarding the OP-20 should be referred to (703) 697-3101. The SNaP system will generate this display from the data provided for MWR programs (military, civilian, lodging, supplemental mission NAFIs, and armed services exchanges) that includes a title page with the following description of the exhibit: “The Exhibit OP-34 displays total appropriated fund support for the Department of _____ managed Morale, Welfare, and Recreation (MWR) programs.” The title page will also include the following definition of MWR programs (from DoDI 1015.10): “The MWR programs are vital to mission accomplishment and form an integral part of the non-pay compensation system. These programs provide a sense of community among patrons and provide support services commonly furnished by other employers, or other State and local governments to their employees and citizens. The MWR programs encourage positive individual values, and aid in recruitment and retention of personnel. They provide the physical, cultural, and social needs, and general well-being of Service members and their families, providing community support systems that make DoD bases temporary hometowns for a mobile military population.”

APPROPRIATED FUND SUPPORT FOR MORALE, WELFARE AND RECREATION ACTIVITIES (MWR)
(\$ in Thousands)

INSTRUCTIONS:

1. The OP-34 must contain a title page that includes the following description of the exhibit: “The Exhibit OP-34 displays total appropriated fund support (APF) for Dept. of the _____ managed Morale, Welfare, and Recreation (MWR) programs and joint services managed programs.”

The title page must also include the following definition of MWR programs (from DoDI 1015.10): “The MWR programs are vital to mission accomplishment and form an integral part of the non-pay compensation system. These programs provide a sense of community among patrons and provide support services commonly furnished by other employers, or other State and local governments to their employees and citizens. The MWR programs encourage positive individual values, and aid in recruitment and retention of personnel. They provide for the physical, cultural, and social needs, and general well-being of Service members and their families, providing community support systems that make DoD bases temporary hometowns for a mobile military population.”

The title page must also include a short narrative description of all major program changes, identified separately by MWR category.

2. In preparing the OP-34 Exhibit, the Services/Defense Agencies must use the program definitions contained in the DoD Directive 1015.10, subject: Programs for Military Morale, Welfare, and Recreation (MWR), DoDI 1015.12, subject: Lodging Program Resource Management; and DoDD 1015.8, subject: DoD Civilian Employee Morale, Welfare, and Recreation (MWR) and Supporting Nonappropriated Fund Instrumentalities (NAFIs).

3. APF support should include both direct and indirect APF support provided to MWR activities and should include the cost categories reported on the Appropriated and Nonappropriated Fund Expense Summary required by DoDI 7000.12. Direct costs include those costs that can be directly attributable to the activity and include civilian and military pay and benefits, travel, training, supplies and equipment, contracts, and Family Child Care subsidy. Indirect costs include costs that are attributed to more than one activity and include rents, utilities, communications, minor construction, repair and maintenance, contracts, engineering support, etc.

4. APF Common Support - That appropriated fund support, identified as APF support used in the management, administration and operation of more than one MWR program, however, that support or cost is not easily nor readily identifiable to a specific MWR program.

Some examples of APF common support would include: managerial operational functions and positions at an installation, major command or Service, executive and upper management supervision that is functionally located above the operating program manager level and having responsibility for several MWR programs; an installation’s civilian personnel functions; and central accounting office functions.

5. The OP-34 Exhibits must be submitted for the OSD/OMB budget submission each year. The OP-34 exhibit should also be included in the congressional justification books (Volume II - Data Book) each year.

Instructions for Completing the Weapon Systems Readiness Database--Ship Operations

- 1) For Navy only, provide the funding level--by Active and Reserve--for Ship Operations as defined by the Budget Exhibit OP-41 (described in the DoD Financial Management Regulation). Identify the relevant Navy SAG for Ship Operations.
- 2) If OPTEMPO Types are constant for all ships across the program, provide narrative in a word document explaining why.

Definitions:

Organization: The POM reporting entities directed to submit this data requirement. For a complete list of organizations see by data requirement see Appendix A of the PDR.

Component: Active, Guard, and Reserve

SAG: Sub-Activity Group, budget term denoting groupings of resources e.g., Navy SAG: 1B1B.

Program Element: Identify the PE containing the weapon system described by the detail.

Weapon System Type: Provide Ship Type detail for the weapon system described by the detail.

OP-41 Ship Operations Program Continued

Weapon System Detail:

Quantity-Identify the number of ships per Ship Type used to determine the steaming days program funding

Steaming Days: -This OPTEMPO Type is the number of steaming days per Ship per Quarter for Deployed and Non-Deployed for both required and funded. For inventory, PEs will be pulled from the Forces FYDP and compared to the Inventory values provided by the Navy.)

Ship Operational (Op) Months - This OPTEMPO Type is the number of months a ship is “operational” (i.e., not in a major repair period)

Funded: Identify funding level for Repair Parts (including reparable parts), Fuel, Consumables, Utilities, Nuclear Fuel, Charter and Other using the OP-41 guidelines, generally defined by Navy Special Interest Codes

Total TOA Required: Provide total TOA required to meet the funded steaming days.

Technical Issues: If you are having difficulty with the data collection system—SNaP, contact the SNaP administrators via the email link at the web site.

Instructions

Reflect program data under “Description of Operations Financed” and “Program Data” sections.

Narrative Explanation of Changes: Provide a succinct narrative explanation of total resource changes (for \$ provide in nearest tenth of a million) between the Current Year (CY) and Biennial Budget Year 1 (BY1) and between Biennial Budget Year 1 (BY1) and Biennial Budget Year 2 (BY2) by relating it to program changes (force structure, end strength, etc.) for the period. Also, identify any applicable major pricing changes between years. Explanation of price and program changes should be provided separately for the Active Fleet as well as the Reserve Fleet. Include all other direct ship operationsrelated costs (fuel, supplies/DLRs, consumables). Price and Program changes should agree with those displayed on the Summary of Price and Program Changes (OP-32) and the Detail by Budget Activity and Activity Group (OP-5). Show functional transfers as program changes consistent with the OP-32 and the OP-5 exhibits. Data entered on this exhibit must match the corresponding data entered on the Reserve Components (PBA-11), Appropriation Highlights (PBA-19), Key Activity Indicators (PBA-21), and Special Operations Forces (PBA-26) Exhibits. In addition, the data contained in the O&M Overview should match the data reported in other budget justification material such as the OP-5 (performance criteria), Ship Fuel Data and OPTEMPO Data (OP-40), Ship Operating Cost Data (OP-4), Funding for Depot Level Reparables (OP-31), and Special Operations Forces (OP-52).

Identify on the bottom of the exhibit the preparation date and a point of contact who is knowledgeable about the content of the data reflected on the exhibit as well as a telephone number for the individual.

Activity: Facilities Sustainment

Activity Goal: To provide operationally effective facilities that adequately support missions, training, and personnel while obtaining the optimum expected service life from the facilities inventory thereby minimizing costs over a full service life cycle.

Description of Activity: Provides resources for maintenance and repair activities necessary to keep an inventory of facilities in good working order. Includes regularly scheduled maintenance and major repairs or replacement of facility components that are expected to occur periodically throughout the life cycle of facilities.

Categories: Preventive maintenance, minor repairs, and periodic (scheduled and predictable) replacement of major components including roofs, exterior and interior walls and finishes, stairways, doors, and air conditioning, heating, plumbing, electrical, and fire protection systems.

Variance Reporting: Describe all variances in quantities and dollars from the original President's Budget submission for both the Prior Year and the Current Year. In addition to the explanations as to the reasons for the variances, this area should also be used to discuss how the variances contributed to/hindered achievement of activity goal. Variances should address changes in commercial benchmarks to include material, labor, and other cost elements; changes in geographic area costs; changes in the quantity of facilities in the inventory; and changes in funding source from or to operations and maintenance funding.

Activity: Facilities Recapitalization

Activity Goal: To provide operationally effective facilities that adequately support missions, training, and personnel while incorporating technological innovations and emerging standards necessary to properly accommodate a modern military force

Description of Activity: Provides resources for improving facilities. Restoration includes repair and replacement work to restore facilities damaged by inadequate sustainment, excessive age, natural disaster, fire, accident, or other causes. Modernization includes alteration of facilities solely to implement new or higher standards, to accommodate new functions, or to replace building components that typically last longer than a normal service life, such as building foundations

Categories: Restoration and modernization. Restoration restores performance to adequate or original design levels and modernization adds additional performance beyond the original design. Includes major non-periodic (unscheduled or unpredictable) repairs during the life cycle and/or replacement or wholesale renovation at the end of expected service life.

Footnotes/Additional Guidance:

1/ Show the total number of ships (at the end of the fiscal year) for this category and the total amount of per diem payments made to the National Defense Sealift Fund (NDSF) or the U.S. Transportation Command. The Defense Logistics Agency (DLA) should report the cost of afloat prepositioned tankers used by the Defense Fuel Supply Center.

2/ Show the number of planned exercises and the total amount budgeted. Do not include JCS funded exercises in the Service submissions. JCS exercises and funding will be reported as Defense-Wide.

3/ Show Service-funded costs not included as part of the per diem payment to the NDSF but which are directly related to the sealift program. This would include enhancements and modifications to on-board systems.
