

# Section 2

## Financial Information

## How the Department Evolved

**1775** *The Army, Navy, and Marine Corps were established in concurrence with the American Revolution.*

**1789** *The War Department was established and was the precursor to what is now the Department of Defense.*

**1798** *The Department of the Navy, and the U.S. Coast Guard, were founded.*

**1947** *Congress established a civilian, Cabinet-level Secretary of Defense. The Department of the Air Force was created, the War Department was converted to the Department of the Army, and the three military departments of the Army, Navy and Air Force were placed under the direct control of the first Secretary of Defense.*

**1949** *The national defense structure was consolidated further, creating what we now know as the Department of Defense, and withdrawing cabinet-level status for the three Military Department Secretaries.*

# Message from the Chief Financial Officer

COMPTROLLER

UNDER SECRETARY OF DEFENSE  
1100 DEFENSE PENTAGON  
WASHINGTON, DC 20301-1100

November 15, 2007

We are pleased to present the fiscal year (FY) 2007 Agency Financial Report of the Department of Defense. The Department's leadership considers its financial stewardship responsibility to be an integral part of its mission to defend our Nation.

The Department's financial management professionals have worked hard to improve the quality, accuracy and reliability of our financial information. As of FY 2006, roughly one-third of the Department's \$3.3 trillion in combined assets and liabilities have achieved an unqualified audit opinion. By following the roadmap we have laid out, the Department expects to increase its overall audit readiness to two-thirds by the end of FY 2009.

During FY 2007, efficiency gains in financial management operations allowed us to return savings to the warfighter of almost \$100 million in projected overhead costs. We also reduced the amount of outstanding debt owed to the Department by \$1.2 billion over the last two years through better monitoring and collection efforts.

Our monitoring of costs in the procurement contract area led to over \$2.4 billion in savings. In addition, the Department investigated and collected over \$225 million in fraudulently billed costs. These efforts have stretched the warfighter dollar and increased the Department's purchasing power.

We continue to improve our financial stewardship by strengthening internal controls. A recently concluded audit of the Department's civilian payroll system, which pays over 795,000 federal employees, found no weaknesses in the design of the system internal controls. This year, the Department's Management Internal Control Program, which identifies reports and corrects material internal control weaknesses, reduced the number of uncorrected weaknesses from 35 to 19.

We acknowledge that the journey before us is challenging, but supporting our warfighters and prudent stewardship of taxpayer resources demands nothing less. We are all deeply grateful to our soldiers, sailors, airmen and marines who defend our freedom each and every day. Those of us in the financial community are proud to do our part to support them.

A blue ink signature of Tina W. Jonas, written in a cursive style.

Tina W. Jonas

# Independent Auditor's Report

INSPECTOR GENERAL  
DEPARTMENT OF DEFENSE  
400 ARMY NAVY DRIVE  
ARLINGTON, VIRGINIA 22202-4704

November 12, 2007

MEMORANDUM FOR UNDER SECRETARY OF DEFENSE (COMPTROLLER)/CHIEF  
FINANCIAL OFFICER

SUBJECT: Independent Auditor's Report on the Department of Defense FY 2007 Financial  
Statements (Report No. D-2008-023)

We are providing the subject report to be published in the DoD FY 2007 Agency Financial Report in conjunction with the DoD Agency-Wide FY 2007 Basic Statements provided to us in draft on November 1, 2007. The report includes our disclaimer of opinion on the basic financial statements, as well as our required report on internal control and compliance with laws and regulations. Because our disclaimer of opinion is being issued to accompany the DoD Agency-Wide FY 2007 Basic Financial Statements, this audit report should not be disseminated separately from those statements.

We appreciate the courtesies extended to the audit staff. Please contact Mr. Daniel R. Blair (703) 325-6120 or Mr. Charles O. Egu at (703) 325-5961 if you have any questions.

A handwritten signature in cursive script, reading "Paul J. Granetto", is positioned above the typed name.

Assistant Inspector General and Director  
Defense Financial Auditing  
Service

INSPECTOR GENERAL  
DEPARTMENT OF DEFENSE  
400 ARMY NAVY DRIVE  
ARLINGTON, VIRGINIA 22202-4704

November 12, 2007

MEMORANDUM FOR UNDER SECRETARY OF DEFENSE (COMPTROLLER)/CHIEF  
FINANCIAL OFFICER

SUBJECT: Independent Auditor's Report on the FY 2007 DoD Financial Statements (Report  
No. D-2008-023)

The Chief Financial Officers Act of 1990, as amended, requires the Department of Defense Inspector General to audit the accompanying DoD Agency-Wide Consolidated Balance Sheet as of September 30, 2007 and 2006, and the Consolidated Statement of Net Cost, the Consolidated Statement of Changes in Net Position, and the Combined Statement of Budgetary Resources, and related notes for the FYs then ended.<sup>1</sup> The basic financial statements are the responsibility of DoD management. DoD is also responsible for implementing effective internal control and for complying with laws and regulations. We are unable to express an opinion on the DoD Agency-Wide FY 2007 Financial Statements because of limitations on the scope of our work. Thus, the basic financial statements may be unreliable. In addition to our disclaimer of opinion on the basic financial statements, we are including the required Report on Internal Control and Compliance with Laws and Regulations. The Report on Internal Control and Compliance with Laws and Regulations is an integral part of our disclaimer of opinion on the financial statements and should be considered in assessing the results of our work.

**Disclaimer of Opinion on the Financial Statements**

The Under Secretary of Defense (Comptroller)/Chief Financial Officer acknowledged to us that the DoD Agency-Wide FY 2007 Financial Statements would not substantially conform to accounting principles generally accepted in the United States of America (GAAP), and that DoD financial management and feeder systems were unable to adequately support material amounts on the financial statements as of September 30, 2007. Section 1008(d) of the FY 2002 National Defense Authorization Act limits the Department of Defense Inspector General to performing only those audit procedures required by generally accepted government auditing standards that are consistent with the representations made by management. Therefore, we did not perform auditing procedures required by U.S. Government auditing standards and Office of Management and Budget (OMB) Bulletin No. 07-04 to determine whether material amounts on the financial statements were fairly presented. Prior audits have identified, and DoD has also acknowledged, the long-standing material internal control weaknesses identified in the Summary of Internal Control. These pervasive material weaknesses may affect the reliability of certain information contained in the annual financial statements—much of which is taken from the same data sources as the basic financial statements.<sup>2</sup> Therefore, we are unable to express, and we do not express, an opinion on the basic financial statements. Further, the purpose of the audit was not to express an opinion on Management Discussion and Analysis, Required Supplementary Stewardship

<sup>1</sup> Beginning in FY 2007, OMB Circular A-136 requires entities to present the Statement of Financing as a note. It is no longer considered a basic statement. In addition, DoD no longer prepares a Statement of Custodial Activity. DoD asserted that its Custodial Collections are immaterial and incidental to the agency's primary mission.

<sup>2</sup> The annual financial statements include the basic statements, Management Discussion and Analysis, Required Supplementary Stewardship Information, Required Supplementary Information, and Other Accompanying Information.

Information, Required Supplementary Information, Other Accompanying Information, and Performance Measures accompanying the basic financial statements. Accordingly, we express no opinion on that information.

As discussed in Note 25 to the financial statements, DoD has restated the FY 2006 basic financial statements. DoD made the restatements in order to account for changes in the reporting requirements for Allocation Transfers and to correct errors in the computation of the Distributed Offsetting Receipts reported on the Statement of Budgetary Resources. These restatements are material to the DoD Agency-Wide financial statements. Further, there has been no change to the previously issued disclaimer of audit opinion on the FY 06 basic financial statements.

As discussed in Notes 1.H, 1.Z, and 25 to the basic financial statements, DoD reported the programs it administers on behalf of the Executive Office of the President, including the Foreign Military Sales Program, in its FY 2007 basic financial statements. Previously, DoD recorded these programs as "Other Accompanying Information." DoD made this change to comply with new requirements in OMB Circular A-136 pertaining to allocation transfers. Because the impact of this change in accounting principle is material and pervasive, DoD, in coordination with OMB and the Treasury, restated the FY 2006 comparative columns on the financial statements and accompanying notes, rather than accounting for it as a change in accounting principle, as required by OMB Circular A-136.

As discussed in Notes 1.Z and 21 to the financial statements, effective FY 2007 DoD no longer prepares a Statement of Financing, and has presented the information formerly included in this Statement in Note 21, "Reconciliation of Net Cost of Operations to Budget" in accordance with the requirements contained in the revised OMB Circular A-136.

As discussed in Note 1.Z to the financial statements, effective FY 2007 DoD no longer prepares a Statement of Custodial Activity. DoD previously used the Statement of Custodial Activity to record collections and disbursements for three custodial accounts, including Foreign Military Sales. Because the Foreign Military Sales activity is no longer reported in the Statement of Custodial Activity, and the remaining DoD custodial activity is immaterial and incidental to DoD's primary mission, DoD has elected to disclose the remaining activity in Note 22, "Incidental Custodial Collections."

### **Summary of Internal Control**

In planning our work, we considered DoD internal controls over financial reporting and compliance with applicable laws and regulations. We did this to determine our procedures for auditing the financial statements and to comply with OMB guidance, but our purpose was not to express an opinion on internal control. Accordingly, we do not express an opinion on internal control over financial reporting and compliance with applicable laws and regulations. In addition, the Under Secretary of Defense (Comptroller)/Chief Financial Officer has acknowledged that she can offer no assurance on internal control over financial reporting. Previously identified control weaknesses, all of which are material, continued to exist in the following areas:

- **Financial Management Systems**
- **Fund Balance with Treasury**
- **Inventory**

3

- **Operating Materials and Supplies**
- **General Property, Plant, and Equipment**
- **Government-Furnished Material and Contractor-Acquired Material**
- **Environmental Liabilities**
- **Intragovernmental Eliminations**
- **Other Accounting Entries**
- **Statement of Net Cost**
- **Reconciliation of Net Cost of Operations to Budget<sup>3</sup>**
- **Accounts Payable**

We identified the following additional material weakness in FY 2007:

- **Accounts Receivable**

A material weakness is a significant deficiency, or a combination of significant deficiencies, resulting in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected.<sup>4</sup>

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, adversely affecting the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with GAAP.

Significant deficiencies result in more than a remote likelihood that a misstatement of an entity's financial statements that is more than inconsequential will not be prevented or detected. The following significant deficiency continued to exist:

- **Contingent Legal Liabilities**

We identified the following significant deficiency during FY 2007:

- **Cash and Other Monetary Assets**

<sup>3</sup> This material weakness originally was presented as the Statement of Financing. Because OMB Circular A-136 requires entities to present the Statement of Financing as a note to the financial statements and the condition that caused the material weakness continued to exist, we renamed the material weakness to reflect the title of the new note.

<sup>4</sup> The term "remote" is defined as "the chance of the future event or events occurring is slight." Therefore, the likelihood of an event is "more than remote" when it is at least reasonably possible.

Our internal control work (conducted as part of prior audits) would not necessarily disclose all significant deficiencies. The Attachment offers additional details on significant deficiencies, most of which we consider to be material internal control weaknesses.

#### **Summary of Compliance with Laws and Regulations**

Our work to determine compliance with selected provisions of applicable laws and regulations related to financial reporting was limited because management acknowledged that instances of noncompliance identified in prior audits continue to exist. The Under Secretary of Defense (Comptroller)/Chief Financial Officer acknowledged to us that DoD financial management systems do not substantially comply with Federal financial management system requirements, GAAP, and the U.S. Government Standard General Ledger at the transaction level. Therefore, we did not determine whether DoD was in compliance with all applicable laws and regulations related to financial reporting. Providing an opinion on compliance with certain provisions of laws and regulations was not an objective of our audit and, accordingly, we do not express such an opinion. See the Attachment for additional details on compliance with laws and regulations.

#### **Management's Responsibilities**

Management is responsible for:

- preparing the financial statements in conformity with GAAP;
- establishing, maintaining, and assessing internal controls to provide reasonable assurance that the broad control objectives of the Federal Managers Financial Integrity Act are met; and
- complying with applicable laws and regulations.

We provided a draft of this report to the Under Secretary of Defense (Comptroller)/Chief Financial Officer who then provided us technical comments, which we incorporated as appropriate. DoD officials expressed their continuing commitment to address the problems this report outlines.

As stated

## Report on Internal Control and Compliance with Laws and Regulations

### Internal Control

Management is responsible for implementing and maintaining effective internal control and for providing reasonable assurance that accounting data are accumulated, recorded, and reported properly; that the requirements of applicable laws and regulations are met; and that assets are safeguarded against misappropriation and abuse. Our purpose was not to, and we do not, express an opinion on internal control over financial reporting. However, we have identified the following material weaknesses and significant deficiencies that could adversely affect the DoD financial management operations.

### Previously Identified Material Weaknesses

Management acknowledged that previously identified control weaknesses, all of which are material, continued to exist in the following areas:

**Financial Management Systems.** Statement of Federal Financial Accounting Concepts No. 1, "Objectives of Federal Financial Reporting," requires financial management system controls that are: adequate to ensure that transactions are executed in accordance with budgetary and financial laws and other requirements; consistent with the purposes authorized; and recorded in accordance with Federal accounting standards. Statement of Federal Financial Accounting Concepts No. 1 also requires that financial management system controls ensure assets are properly safeguarded to deter fraud, waste, and abuse; and that performance measurement information is adequately supported. The Under Secretary of Defense (Comptroller)/Chief Financial Officer acknowledged that DoD financial management and feeder systems do not substantially comply with Federal financial management system requirements. DoD financial management and feeder systems were not designed to adequately support various material amounts on the financial statements. These systemic deficiencies in financial management and feeder systems, and inadequate DoD business processes, result in the inability to collect and report financial and performance information that is accurate, reliable, and timely.

**Fund Balance with Treasury.** Statement of Federal Financial Accounting Standards No. 1, "Accounting for Selected Assets and Liabilities," the U.S. Treasury Manual, and DoD Financial Management Regulation 7000.14-R require DoD to resolve financial and accounting inconsistencies to accurately report Fund Balance with Treasury. However, inconsistencies continue to exist related to in-transit disbursements, unmatched disbursements, negative unliquidated obligations, unreconciled differences in suspense accounts, and unreconciled differences between U.S. Treasury records and DoD accounting records.

**Inventory.** Statement of Federal Financial Accounting Standards No. 3, "Accounting for Inventory and Related Property," requires DoD to use historical cost, the latest acquisition cost (adjusted for holding gains and losses), or moving average cost for valuing inventory. However, DoD acknowledged that the existing inventory value for most activities is not reported in accordance with GAAP, and the Department's legacy systems do not maintain the historical cost data necessary to comply with Statement of Federal Financial Accounting Standards No. 3. Additionally, DoD does not distinguish between Inventory Held for Sale and Inventory Held in Reserve for Future Sale, as required by Statement of Federal Financial Accounting Standards No. 3.

Attachment

**Operating Materials and Supplies.** Statement of Federal Financial Accounting Standards No. 3, "Accounting for Inventory and Related Property," states that Operating Materials and Supplies must be expensed when the items are consumed. DoD has acknowledged that significant amounts of Operating Materials and Supplies were expensed when purchased instead of when consumed. In addition, DoD cannot accurately report the value of operating materials and supplies, which causes the potential for a misstatement in financial reporting. For example, the Navy did not accurately report Sponsor-Owned Material in its FY 2006 Financial Statements. More than \$2.5 billion of Sponsor-Owned Material was improperly classified and reported as Operating Materials and Supplies, including \$1.9 billion of special tooling and test equipment, \$481.6 million of aviation support equipment held for Foreign Military Sales, and \$113.7 million of general support equipment. Those items should have been reported in the Inventory or General Property, Plant, and Equipment accounts.

**General Property, Plant, and Equipment.** Statement of Federal Financial Accounting Standards No. 6, "Accounting for Property, Plant, and Equipment," requires DoD to record General Property, Plant, and Equipment at acquisition cost, capitalize improvement costs, and recognize depreciation expense. However, the cost and depreciation of the DoD General Property, Plant, and Equipment is not reliably reported because of: (1) an accounting requirement that classified military equipment as General Property, Plant, and Equipment (such costs were previously expensed); (2) a lack of supporting documentation for General Property, Plant, and Equipment items, which were purchased many years ago; and (3) a failure to integrate most legacy property and logistics systems with acquisition and financial systems. Also, DoD property and logistics systems were not designed to capture acquisition cost and the cost of modifications and upgrades, or to calculate depreciation. DoD has acknowledged that it does not currently meet GAAP for the financial reporting of personal property, and documentation for personal property is neither accurate nor reliable. In addition, DoD does not have adequate internal controls in place to provide reasonable assurance that real property assets are identified and properly reported in its financial reports. DoD has also acknowledged that its inability to accurately report the value of military equipment supports the probability that the financial statements are materially misstated.

**Government-Furnished Material and Contractor-Acquired Material.** Statement of Federal Financial Accounting Standards No. 11, "Amendments to Accounting for Property, Plant, and Equipment," requires that property and equipment in the possession of a contractor, for use in accomplishing a contract, be considered Government property. Such property should be accounted for based on the nature of the item, regardless of who has possession. DoD has acknowledged that it is unable to comply with these requirements for Government-Furnished Materials and Contractor-Acquired Materials. As a result, the value of DoD property and material in the possession of contractors is not reliably reported.

**Environmental Liabilities.** DoD acknowledged that its internal controls for reporting environmental liabilities do not provide reasonable assurance that clean-up costs for all of its ongoing, inactive, closed, and disposal operations are identified, consistently estimated, and appropriately reported. In addition, guidance and audit trails for estimating environmental liabilities are insufficient, and the inventory of ranges and operational activities is incomplete. DoD has also acknowledged uncertainty regarding the accounting estimates used to calculate the reported Environmental Liabilities.

**Intragovernmental Eliminations.** DoD disclosed that it cannot accurately identify most of its intragovernmental transactions by customer because the Department's systems do not track buyer and seller data needed to match related transactions. In addition, the Department is unable to fully reconcile intragovernmental transactions with all Federal partners. DoD acknowledged that its inability to reconcile most intragovernmental transactions results in adjustments that

cannot be fully supported. For example, Defense Finance and Accounting Service (DFAS), Indianapolis Operations made \$35.5 billion in unsupported adjustments to intragovernmental accounts to force the accounts to agree with the records of Army's trading partners.

**Other Accounting Entries.** DoD acknowledged that it continues to enter material amounts of unsupported accounting entries. For example, DFAS, Indianapolis Operations recorded \$258.2 billion in unsupported accounting entries to prepare the FY 2006 Army General Fund Financial Statements.

**Statement of Net Cost.** Statement of Federal Financial Accounting Concepts No. 2, "Entity and Display," requires the Statement of Net Cost to provide an understanding of the net costs of each organization and each program. In addition, the Statement of Net Cost should provide gross and net cost information that can be related to the amounts of outputs and outcomes for the programs and organization. DoD acknowledged the following deficiencies related to the Statement of Net Cost.

- The amounts presented for General Funds may not report actual accrued costs.
- Although the funds are generally recorded on an accrual basis for Working Capital Funds, as required by GAAP, the systems do not always capture actual costs in a timely manner.
- The Statement of Net Cost is not presented by programs that align with major goals and outputs described in DoD's strategic and performance plans required by the Government Performance and Results Act.
- Revenues and expenses are reported by appropriation categories because financial processes and systems do not collect costs in line with performance measures.

**Reconciliation of Net Cost of Operations to Budget.** Statement of Federal Financial Accounting Standards No. 7, "Accounting for Revenue and Other Financing Sources" requires a reconciliation of proprietary and budgetary information to assist users in understanding the relationship between the net cost of operations and the budgetary resources obligated by the entity during the period. During FY 2007, OMB rescinded the requirement to report this reconciliation as a Statement of Financing and now requires the disclosure of the information as a note to the financial statements. DoD acknowledged that it is unable to reconcile budgetary obligations to net costs without making unsupported adjustments. Specifically, budgetary data do not agree with proprietary expenses and capitalized assets. DoD made unsupported adjustments of \$2 billion (absolute value) to reconcile obligations to the Statement of Net Cost. In addition, the Army General Fund is unable to accurately represent the relationship between budgetary obligations incurred and its Statement of Net Costs without preparing \$22.9 billion in unsupported adjustments to the general ledger accounts to force costs to match obligation information.

**Accounts Payable.** According to Statement of Federal Financial Accounting Standards No. 5, "Accounting for Liabilities of the Federal Government," "... a liability is recognized when one party receives goods or services in return for a promise to provide money or other resources in the future." DoD acknowledged that it does not meet accounting standards for the financial reporting of public accounts payable. DoD cannot support its accounts payable balances because it lacks standard procedures for recording, reporting, and reconciling the amounts between the financial, accounting, and reporting systems. DoD identified Accounts Payable as a material weakness based on its FY 2007 assessment of internal control over financial reporting as required by OMB A-123 Appendix A. Additionally, our Independent

Auditor's reports on Internal Control for the FY 2007 Army General and Working Capital Funds, Navy General and Working Capital Funds, and the U.S. Army Corps of Engineers, Civil Works, identified Accounts Payable as a material weakness. These Components accounts payable balances comprised more than 54 percent of the DoD-Wide combined Accounts Payable balance as of September 30, 2007.

**Material Weakness Identified During FY 2007.** As a result of our financial-related audit work during FY 2007, we identified the following material internal control weakness:

**Accounts Receivable.** According to Statement of Federal Financial Accounting Standards No. 1, "Accounting for Selected Assets and Liabilities," a receivable should be recognized when a Federal entity establishes a claim to cash or other assets against other entities, either based on legal provisions, or goods and services provided. DoD acknowledged that it is unable to accurately record, report, collect, and reconcile intragovernmental accounts receivable as well as accounts receivable due from the public. DoD identified Accounts Receivable as a material weakness based on its FY 2007 assessment of internal control over financial reporting as required by OMB Circular No. A-123 Appendix A. Also, our independent auditor's reports on internal control for the FY 2007 Navy General and Working Capital Funds, Army General Fund, and the U.S. Army Corps of Engineers, Civil Works, showed accounts receivable to be a material weakness. These Components' accounts receivable balances comprised approximately 60 percent of the DoD-Wide combined accounts receivable balance as of September 30, 2007. For example,

- In the Army General Fund, there was a lack of controls to ensure that all entitlement system receivables (vendor pay, civilian pay, and interest) were recorded in the accounting systems and to ensure that accounts receivable balances were supported at the transaction level. As a result, DFAS, Indianapolis Operations made \$1.1 billion in unsupported adjustments for FY 2007 that decreased the accounts receivable balances by \$845.1 million.
- In the Navy General Fund, audit trails for accounts receivable were inadequate, and accounts receivable subledgers did not reconcile with the general ledger.

**Previously Identified Significant Deficiency.** As part of our financial-related audits, we noted the following significant deficiency, which continued to exist:

**Contingent Legal Liabilities.** Statement of Federal Financial Accounting Standards No. 5, "Accounting for Liabilities of the Federal Government," as amended by Statement of Federal Financial Accounting Standards No. 12, requires contingent legal liabilities to be disclosed if there is at least a reasonable possibility that a loss may be incurred. We noted that significant deficiencies continued to exist relating to the DoD process for reporting contingent legal liabilities. For example:

- DoD excluded from its legal representation letters at least 74 pending cases, with a total claim amount of \$3.7 billion, that individually did not exceed the DoD Agency-Wide individual reporting threshold, but in aggregate exceeded this threshold.
- The legal representation letters from the DoD Office of General Counsel showed that DoD General Counsel was unable to express an opinion on the likely outcome of 55 of the 65 pending legal actions, totaling \$1.57 trillion.
- The Army legal representation process did not provide meaningful assessments of potential liabilities and was not linked to the Army process for reporting and

disclosing contingent legal liabilities on the financial statements. The legal representation letter from the Army Office of General Counsel and its attached management schedule did not corroborate either the \$443.2 million reported on the Balance Sheet as part of Non-Federal Other Liabilities or the \$446.8 million disclosed as contingent legal liabilities on Note 16 in the FY 2007 Army General Fund Financial Statements.

**Significant Deficiency Identified During FY 2007.** During FY 2007, we noted a significant deficiency related to Cash and Other Monetary Assets.

**Cash and Other Monetary Assets.** In the Army General Fund, internal and physical controls over Army Cash and Other Monetary Assets were inadequate, and cash in custody of agents reported on the Monthly Accountability Form (Standard Form 1219) was unreliable and unauditible. DFAS, Indianapolis Operations used its monthly Consolidated Statement of Accountability to make a \$2.18 billion adjustment to the accounting records. Because Army and DFAS were not in compliance with reporting and control requirements mandated by OMB and DoD, there was no assurance that cash transactions were recorded, accumulated, and reported properly and that cash was adequately safeguarded. In addition, Army may have materially overstated the \$2.18 billion of Cash and Other Monetary Assets reported on the Army General Fund Balance Sheet.

These financial management deficiencies may cause inaccurate management information and the DoD basic financial statements may also contain misstatements resulting from these deficiencies. As a result, DoD management and other users' decisions based in whole or in part on this information may be adversely affected.

### Compliance with Laws and Regulations

Management is responsible for compliance with existing laws and regulations related to financial reporting. Our work to determine compliance with selected provisions of the applicable laws and regulations was limited because management acknowledged instances of noncompliance, and previously reported instances of noncompliance continue to exist. Therefore, we did not determine whether DoD was in compliance with selected provisions of all applicable laws and regulations related to financial reporting. Our objective was not to, and we do not, express an opinion on compliance with applicable laws and regulations.

**Federal Financial Management Improvement Act of 1996.** The Federal Financial Management Improvement Act of 1996 requires DoD to establish and maintain financial management systems that comply substantially with Federal financial management system requirements, applicable GAAP, and the U.S. Government Standard General Ledger at the transaction level. The Federal Financial Management Improvement Act also requires DoD to develop a remediation plan when its financial management systems do not comply with Federal financial management system requirements. The remediation plan is to include remedies, resources, and milestones. For FY 2007, DoD did not comply with the Federal Financial Management Improvement Act. DoD acknowledged that many of its financial management and feeder systems did not substantially comply with Federal financial management system requirements, Federal accounting standards, and the U.S. Government Standard General Ledger at the transaction level as of September 30, 2007.

**Government Performance and Results Act.** Congress enacted the Government Performance and Results Act of 1993 (GPRA) to establish strategic planning and performance measurement in the Federal Government. Strategic plans, annual performance plans, and annual program performance reports comprise the main elements of GPRA. DoD did not fully comply with the requirements of GPRA and subsequent implementation guidance in OMB Circular A-11, "Preparation, Submission, and Execution of the Budget." Specifically, DoD did not have a compliant strategic plan for FY 2007 because DoD designated the Quadrennial Defense Review report, (which was prepared to fulfill the specific legislative requirements for a Quadrennial Defense Review) as its strategic plan without considering other requirements specified in GPRA. As a result, DoD performance budget and performance report for FY 2007 did not comply with the requirements of GPRA and OMB Circular A-11.

**Antideficiency Act.** Section 1341, Title 31, United States Code limits DoD and its agents to make or authorize only expenditures or obligations that do not exceed the amount available in the appropriations or funds for the expenditures or obligations. Also, DoD, and its agents, may not contract or obligate for the payment of money before an appropriation is made available for that contract or obligation unless otherwise authorized by law. During FY 2007, DoD reported 17 cases where actual violations of the Antideficiency Act occurred.

Section 1341, Title 31, United States Code states that if an officer or employee of an executive agency violates the Antideficiency Act, the head of the agency must report immediately to the President and Congress all relevant facts and a statement of the actions taken. DoD internal guidance limits the time between identification and reporting violations of the Antideficiency Act to 12 months. Our review of DoD Antideficiency Act investigations of potential violations shows that DoD did not report Antideficiency Act violation cases within the 12-month time limit.

**Prompt Payment Act.** The Prompt Payment Act requires the payment date for an invoice to be the date payment is due under the contract or 30 days after a proper invoice is received (if a specific payment date is not established by the contract). The Prompt Payment Act also states

7

that an agency must make payments no more than 7 days prior to the payment due date unless the agency head or designee has determined that earlier payment is necessary. The Act requires DoD to maintain an internal control environment in accordance with OMB Circular A-123, "Management's Responsibility for Internal Control," December 21, 2004. In prior audit reports, we identified internal control weaknesses in the DFAS Columbus contractor payment system, "Mechanization of Contract Administration Service," that resulted in incorrect payments of interest to contractors. If controls governing compliance with the Prompt Payment Act are not corrected, DFAS Columbus could continue to pay a significant number of interest payments incorrectly and violate the provisions of the Prompt Payment Act.

**Improper Payments Information Act.** DoD does not fully comply with the requirements of the Improper Payments Information Act of 2002, Public Law 107-300, and subsequent OMB guidance. Specifically, DoD was still in the process of developing procedures to implement OMB's August 2006 guidance that requires additional documentation related to the identification of improper payments. The new OMB guidance requires that when an agency is unable to discern whether a payment was proper because of insufficient or lack of documentation, the payment must be considered an error. In addition, DoD efforts to manage recovery audit contracts have been largely unsuccessful. Further, in the FY 2006 Performance and Accountability Report, DoD overstated the amount identified through recovery audits by \$64 million. The Department needs to disseminate guidance to improve contracting for recovery audits and adhere to that guidance in reporting recovered funds.

In November 2006, to facilitate DoD compliance with OMB guidance, the Office of the Under Secretary of Defense(Comptroller)/Chief Financial Officer established a DoD Project Officer for Improper Payments and Recovery Auditing. The Project Officer reviews DoD statistical methodologies and processes to verify that its reporting is accurate, complete, and meets or exceeds OMB requirements. In May 2007, DoD held its first Defense Improper Payment Act Conference to facilitate identification and reporting of improper payments in the Department.

#### **Audit Disclosures**

The Under Secretary of Defense (Comptroller)/Chief Financial Officer acknowledged to us on September 17, 2007, that the DoD financial management and feeder systems cannot provide adequate evidence supporting various material amounts on the financial statements, and previously identified material weaknesses continue to exist. Therefore, we did not perform detailed testing related to previously identified material weaknesses. In addition, we did not perform audit work related to the following selected provisions of laws and regulations: Provisions Governing Claims of the United States Government (including provisions of the Debt Collection Improvement Act), Federal Credit Reform Act, and the Pay and Allowance System for Civilian Employees.

This report does not include recommendations to correct the material internal control weaknesses and instances of noncompliance with laws and regulations, because either previous audit reports contained recommendations for corrective actions or audit projects currently in progress will include appropriate recommendations.

Attachment

## Principal Financial Statements And Notes

---

The principal financial statements included in this report have been prepared in accordance with the requirements of the Chief Financial Officers Act of 1990, the Government Management Reform Act of 1994, and the Office of Management and Budget's Circular A-136, "Financial Reporting Requirements." The responsibility for the integrity of the financial information included in these statements rests with the management of DoD. The Department's fiscal years 2007 and 2006 principal financial statements were audited by the Office of Inspector General. The auditor's report accompanies the principal statements.

The Department's principal financial statements for fiscal years 2007 and 2006 consisted of the following:

### ***The Balance Sheet***

The Balance Sheet, which presents as of September 30, 2007 and 2006 those resources owned or managed by the Department which are available to provide future economic benefits (assets); amounts owed by the Department that will require payments from those resources or future resources (liabilities); and residual amounts retained by the Department, comprising the difference (net position).

### ***The Statement of Net Cost***

The Statement of Net Cost, which presents the net cost of the Department's operations for the years ended September 30, 2007 and 2006. The Department's net cost of operations includes the gross costs incurred by the Department less any exchange revenue earned from Department activities.

### ***The Statement of Changes in Net Position***

The Statement of Changes in Net Position, which presents the change in the Department's net position resulting from the net cost of the Department's operations, budgetary financing sources other than exchange revenues, and other financing sources for the years ended September 30, 2007 and 2006.

### ***The Statement of Budgetary Resources***

The Statement of Budgetary Resources, which presents the budgetary resources available to the Department during FY 2007 and 2006, the status of these resources at September 30, 2007 and 2006, and the outlay of budgetary resources for the years ended September 30, 2007 and 2006.

## CONSOLIDATED BALANCE SHEET

Department of Defense

As of September 30, 2007 and 2006

(\$ in millions)

	2007	2006 Restated
<b>Assets (Note 2)</b>		
Intragovernmental		
Fund Balance with Treasury (Note 3)	\$ 407,167.0	\$ 329,045.1
Investments and Related Interest (Note 4)	333,711.0	299,261.2
Accounts Receivable, Net (Note 5)	1,412.9	2,941.8
Other Assets (Note 6)	1,212.5	1,189.6

## Note 1. Significant Accounting Policies

### 1.A. Basis of Presentation

These financial statements have been prepared to report the financial position and results of operations of the Department of Defense (DoD), as required by the Chief Financial Officers Act of 1990, expanded by the Government Management Reform Act of 1994, and other appropriate legislation. The financial statements have been prepared from the books and records of the Department in accordance with the "DoD Financial Management Regulation," the Office of Management and Budget (OMB) Circular No. A-136, "Financial Reporting Requirements," and to the extent possible, generally accepted accounting principles (GAAP). Effective 4th Quarter, fiscal year (FY) 2006, the Department no longer publishes consolidating/combining financial statements. The accompanying financial statements account for all resources for which the Department is responsible unless otherwise noted. Information relative to classified assets, programs, and operations is excluded from the statements or otherwise aggregated and reported in such a manner that it is not discernable.

The Department is unable to fully implement all elements of GAAP and OMB Circular No. A-136 due to limitations of its financial and nonfinancial management processes and systems that support the financial statements. The Department derives its reported values and information for major asset and liability categories largely from nonfinancial systems, such as inventory and logistics systems. These systems were designed to support reporting requirements for maintaining accountability over assets and reporting the status of federal appropriations rather than preparing financial statements in accordance with GAAP. The Department continues to implement process and system improvements addressing these limitations.

Auditors are required to audit the financial statements of the following Department reporting activities: Army General Fund, Army Working Capital Fund, Navy General Fund, Navy Working Capital Fund, Air Force General Fund, Air Force Working Capital Fund, Military Retirement Fund, Medicare-Eligible Retiree Health Care Fund, and U.S. Army Corps of Engineers (Civil Works).

In addition, the Department requires the Marine Corps General and Working Capital Funds and the following Defense Agencies to prepare internal stand-alone auditable financial statements: Defense Logistics Agency, Defense Finance and Accounting Service, Defense Information Systems Agency, Defense Contract Audit Agency, Defense Commissary Agency, Defense Security Service, Defense Threat Reduction Agency, Defense Advanced Research Projects Agency, Chemical and Biological Defense Program, Missile Defense Agency, Services Medical Activity, TRICARE Management Activity, U.S. Special Operations Command, and Defense Security Cooperative Agency.

The Department currently has 13 auditor-identified material weaknesses: (1) Accounts Payable, (2) Accounting Entries, (3) Environmental Liabilities, (4) Government Property and Materiel in Possession of Contractors, (5) Intragovernmental Eliminations, (6) Operating Materials and Supplies, (7) Reconciliation of Net Cost of Operations to Budget (formerly Statement of Financing), (8) Statement of Net Cost, (9) Financial Management Systems, (10) Fund Balance with Treasury, (11) General Property, Plant and Equipment, (12) Inventory, and (13) Accounts Receivable.

### 1.B. Mission of the Reporting Entity

The Department of Defense was established by the National Security Act of 1947. The Department provides the military forces needed to deter war and protect the security of our country. Since the creation of America's first army in 1775, the Department and its predecessor organizations have evolved into a global presence with a worldwide infrastructure dedicated to defending the United States by deterring and defeating aggression and coercion in critical regions.

The Department of Defense includes the Military Departments, the Defense Agencies and the Department Field Activities. The Military Departments consist of the Army, Navy (of which the Marine Corps is a component), and the Air Force. The Defense Agencies and the Department Field Activities provide support services commonly used throughout the Department.

### 1.C. Appropriations of Funds

The Department receives its appropriations and funds as general, working capital (revolving), trust, special, and deposit

funds. The Department uses these appropriations and funds to execute its missions and subsequently report on resource usage.

General funds are used for financial transactions funded by congressional appropriations, including personnel, operation and maintenance, research and development, procurement, and military construction accounts.

Working capital funds (WCF) received funding to establish an initial corpus through an appropriation or a transfer of resources from existing appropriations or funds. The corpus finances operations and transactions that flow through the fund. The WCF resources the goods and services sold to customers on a reimbursable basis and maintains the corpus. Reimbursable receipts fund future operations and generally are available in their entirety for use without further congressional action. At various times, the Congress provides additional appropriations to supplement the WCF as an infusion of cash when revenues are inadequate to cover costs within the corpus.

Trust funds contain receipts and expenditures of funds held in trust by the government for use in carrying out specific purposes or programs in accordance with the terms of the donor, trust agreement, or statute. Certain trust and special funds may be designated as earmarked funds. Earmarked funds are financed by specifically identified revenues, required by statute to be used for designated activities, benefits or purposes, and remain available over time. The Department is required to separately account for and report on the receipt, use and retention of revenues and other financing sources for earmarked funds.

Special fund accounts are used to record government receipts reserved for a specific purpose.

Deposit funds are used to record amounts held temporarily until paid to the appropriate government or public entity. The Department is acting as an agent or custodian for funds awaiting distribution.

The Department is a party to allocation transfers with other federal agencies as a transferring (parent) or receiving (child) entity. Allocation transfers are an agency's legal delegation of its authority to obligate budget authority and outlay funds to another agency. Generally, all financial activity related to these allocation transfers (e.g., budget authority, obligations, outlays) is reported in the financial statements of the parent entity. Exceptions to this general rule apply to specific funds for which OMB has directed that all activity be reported in the financial statements of the child entity. These exceptions include U.S. Treasury-Managed Trust Funds, Executive Office of the President (EOP), and all other funds specifically designated by OMB.

The Department is a receiving (child) party to allocation transfers for the following agencies: Departments of Agriculture, Interior, Energy, and Transportation; the Appalachian Regional Commission; and the Federal Highway Administration.

Additionally, the Department is a party to other allocation transfers as the child for certain funds meeting the OMB exception and all related activity is thus included in the Department's financial statements. The exceptions reported by the Department include South Dakota Terrestrial Wildlife Habitat Restoration, Inland Waterways and Harbor Maintenance, and the EOP.

As the parent, the Department allocates funds to the Departments of Transportation and Agriculture and reports related activity in its financial statements.

### **1.D. Basis of Accounting**

For FY 2007, the Department's financial management systems are unable to meet all of the requirements for full accrual accounting. Many of the Department's financial and nonfinancial feeder systems and processes were designed and implemented prior to the issuance of GAAP for federal agencies. These systems were not designed to collect and record financial information on the full accrual accounting basis as required by GAAP. Most of the Department's financial and nonfinancial legacy systems were designed to record information on a budgetary basis.

The Department has undertaken efforts to determine the actions required to bring its financial and nonfinancial feeder systems and processes into compliance with GAAP. One such action is the current revision of its accounting systems to record transactions based on the U.S. Standard General Ledger (USSGL). Until all of the Department's financial and nonfinancial feeder systems and processes are updated to collect and report financial information as required by GAAP, the Department's financial data will be derived from budgetary transactions (obligations, disbursements, and collections),

from nonfinancial feeder systems, and accruals made for major items such as payroll expenses, accounts payable, and environmental liabilities.

In addition, the Department identifies program costs based upon the major appropriation groups provided by the Congress. Current processes and systems do not capture and report accumulated costs for major programs based upon the performance measures as required by the Government Performance and Results Act. The Department is working toward a cost reporting methodology that will satisfy the requirement for cost information as mandated in the Statement of Federal Financial Accounting Standards (SFFAS) No. 4, "Managerial Cost Accounting Concepts and Standards for the Federal Government."

### **1.E. Revenues and Other Financing Sources**

The Department receives congressional appropriations as financing sources for general funds that expire annually, on a multiyear basis, or do not expire. When authorized by legislation, these appropriations are supplemented by revenues generated by sales of goods or services. The Department recognizes revenue as a result of costs incurred for goods and services provided to other federal agencies and the public. Full-cost pricing is the Department's standard policy for services provided as required by OMB Circular A-25, "User Charges." The Department recognizes revenue when earned within the constraints of current system capabilities. In some instances, revenue is recognized when bills are issued.

Depot Maintenance and Ordnance WCF activities recognize revenue according to the percentage of completion method. Supply Management WCF activities recognize revenue from the sale of inventory items.

The Department does not include nonmonetary support provided by U.S. allies for common defense and mutual security in amounts reported in the Statement of Net Cost and Note 21, "Reconciliation of Net Cost of Operations to Budget." The U.S. has cost sharing agreements with other countries. Examples include countries where there is a mutual or reciprocal defense agreement, where U.S. troops are stationed, or where the U.S. Fleet is in a port.

### **1.F. Recognition of Expenses**

For financial reporting purposes, the Department's policy requires the recognition of operating expenses in the period incurred. However, because the Department's financial and nonfinancial feeder systems were not designed to collect and record financial information on the full accrual accounting basis, estimates are made for major items such as payroll expenses, accounts payable, and environmental liabilities. In addition, expenditures for capital and other long-term assets are recognized as operating expenses. Expenses for operating materials and supplies are currently recognized when the items are purchased.

### **1.G. Accounting for Intragovernmental Transactions**

Preparation of reliable financial statements requires the elimination of transactions occurring among entities within the Department or between two or more federal agencies. However, the Department cannot accurately eliminate intragovernmental transactions by customer because the Department's systems do not track buyer and seller data at the transaction level. Generally, seller entities within the Department provide summary seller-side balances for revenue, accounts receivable, and unearned revenue to the buyer-side internal Department accounting offices. In most cases, the buyer-side records are adjusted to agree with the Department's seller-side balances. Intra-Department governmental balances are then eliminated. The volume of intragovernmental transactions is so large that after-the-fact reconciliations cannot be accomplished effectively. The Department is developing long-term system improvements to ensure accurate intragovernmental information, to include sufficient up-front edits and controls, eliminating the need for after-the-fact reconciliations.

The U.S. Treasury Financial Management Service is responsible for eliminating transactions between the Department and other federal agencies. The U.S. Treasury's "Federal Intragovernmental Transactions Accounting Policies Guide" and Treasury Financial Manual Part 2 – Chapter 4700, "Agency Reporting Requirements for the Financial Report of the United States Government," provide guidance for reporting and reconciling intragovernmental balances. While the Department is unable to fully reconcile intragovernmental transactions with all federal partners, the Department is able to reconcile balances pertaining to investments in federal securities, borrowings from the U.S. Treasury and the Federal Financing Bank,

Federal Employees' Compensation Act transactions with the Department of Labor, and benefit program transactions with the Office of Personnel Management.

The Department's proportionate share of public debt and related expenses of the Federal Government is not included. The Federal Government does not apportion debt and its related costs to federal agencies. The Department's financial statements, therefore, do not report any portion of the public debt or interest thereon, nor do the statements report the source of public financing, whether from issuance of debt or tax revenues. Generally, financing for the construction of the Department's facilities is obtained through appropriations. To the extent this financing ultimately may have been obtained through the issuance of public debt, interest costs have not been capitalized since the U.S. Treasury does not allocate such costs to the Department.

### **1.H. Transactions with Foreign Governments and International Organizations**

Each year, the Department sells defense articles and services to foreign governments and international organizations under the provisions of the Arms Export Control Act of 1976. Under the provisions of the Act, the Department has authority to sell defense articles and services to foreign countries and international organizations generally at no profit or loss to the U.S. Government. Payment in U.S. dollars is required in advance.

The Department additionally reports foreign military sales transactions on behalf of the Executive Office of the President.

#### **1. I. Funds with the U.S. Treasury**

The Department's monetary resources are maintained in U.S. Treasury accounts. The disbursing offices of Defense Finance and Accounting Service (DFAS), the Military Departments, the U.S. Army Corps of Engineers (USACE), and the Department of State's financial service centers process the majority of the Department's cash collections, disbursements, and adjustments worldwide. Each disbursing station prepares monthly reports to the U.S. Treasury on check issues, electronic fund transfers, interagency transfers, and deposits.

In addition, DFAS sites and USACE Finance Center submit reports to the U.S. Treasury by appropriation on interagency transfers, collections received, and disbursements issued. The U.S. Treasury records these transactions to the applicable Fund Balance with Treasury (FBWT) account. The Department's recorded balance in FBWT accounts and U.S. Treasury's FBWT accounts must balance monthly.

#### **1.J. Foreign Currency**

Cash is the total of cash resources under the control of the Department, which includes coin, paper currency, negotiable instruments, and amounts held for deposit in banks and other financial institutions. Foreign currency consists of the total U.S. dollar equivalent of both purchased and nonpurchased foreign currencies held in foreign currency fund accounts. Foreign currency is valued using the U.S. Treasury prevailing rate of exchange.

The majority of cash and all foreign currency is classified as nonentity and is restricted. Amounts reported consist primarily of cash and foreign currency held by disbursing officers to carry out their paying, collecting, and foreign currency accommodation exchange missions. Cash seized during Operation Iraqi Freedom is restricted to assist the Iraqi people and support the restoration of Iraq.

The Department conducts a significant portion of its operations overseas. The Congress established a special account to handle the gains and losses from foreign currency transactions for five general fund appropriations: operation and maintenance, military personnel, military construction, family housing operation and maintenance, and family housing construction. The gains and losses are calculated as the variance between the exchange rate current at the date of payment and a budget rate established at the beginning of each fiscal year. Foreign currency fluctuations related to other appropriations require adjustments to the original obligation amount at the time of payment. The Department does not separately identify foreign currency fluctuation transactions.

## **1.K. Accounts Receivable**

The Balance Sheet reports accounts receivable in three categories: accounts receivable, claims receivable, and refunds receivable from other federal entities or from the public. Allowances for uncollectible accounts due from the public are based upon an analysis of collection experience by fund type. The Department does not recognize an allowance for estimated uncollectible amounts from other federal agencies. Claims against other federal agencies are to be resolved between the agencies in accordance with dispute resolution procedures defined in the Intragovernmental Business Rules published in the Treasury Financial Manual at <http://www.fms.treas.gov/tfm/vol1/07-03.pdf>.

## **1.L. Direct Loans and Loan Guarantees**

The Department operates a direct loan and loan guarantee program authorized by the National Defense Authorization Act for FY 1996, P.L. 104-106, Section 2801. The Act includes a series of authorities that allow the Department to work with the private sector to renovate military housing. The Department's goals are to obtain private capital to leverage government dollars, make efficient use of limited resources, and use a variety of private sector approaches to build and renovate military housing faster and at a lower cost to the American taxpayers.

The Act also provides the Department with a variety of authorities to obtain private sector financing and expertise to improve military housing. The Department uses these authorities individually or in combination. They include guarantees (both loan and rental), conveyance/leasing of existing property and facilities, differential lease payments, investments (both limited partnerships and stock/bond ownership), and direct loans.

The National Defense Authorization Act for FY 2005, P.L. 108-375, Section 2805 provided permanent authorities to the Military Housing Privatization Initiative (MHPI).

The Department operates a loan guarantee program designed to encourage commercial use of inactive government facilities. The revenue generated from property rental offsets the cost of maintaining these facilities.

The Department administers the Foreign Military Financing program on behalf of EOP. This program is authorized by sections 23 and 24 of the Arms Export Control Act of 1976, as amended, P.L. 90-629, as amended, and section 503(a). This program provides loans to help countries purchase U.S.-produced weapons, defense equipment, services, or military training. The direct loans and loan guarantees related to Foreign Military Sales are included in the basic financial statements.

The Federal Credit Reform Act of 1990 governs all amended direct loan obligations and loan guarantee commitments made after FY 1991 resulting in direct loans or loan guarantees.

## **1.M. Inventories and Related Property**

The Department values approximately 63% of its resale inventory using the moving average cost method. An additional 9% (fuel inventory) is reported using the first-in-first-out method. The Department reports the remaining 28% of resale inventories at an approximation of historical cost using latest acquisition cost adjusted for holding gains and losses. The latest acquisition cost method is used because legacy inventory systems were designed for materiel management rather than accounting. Although these systems provide visibility and accountability over inventory items, they do not maintain historical cost data necessary to comply with SFFAS No. 3, "Accounting for Inventory and Related Property." Additionally, these systems cannot produce financial transactions using the USSGL, as required by the Federal Financial Management Improvement Act of 1996, P.L. 104-208. The Department is continuing to transition the balance of the inventories to the moving average cost method through the use of new inventory systems. However, since the on-hand balances which were transitioned were not, for the most part, baselined to auditable historical cost, the reported values remain noncompliant with SFFAS No. 3 and GAAP.

The Department manages only military or government-specific materiel under normal conditions. Materiel is a unique term that relates to military force management, and includes items such as ships, tanks, self-propelled weapons, aircraft, etc., and related spares, repair parts, and support equipment. Real property, installations, and utilities that are necessary to equip, operate, maintain, and support military activities without distinction as to application for administrative or combat purposes are excluded. Items commonly used in and available from the commercial sector are not managed in the Department's

materiel management activities. Operational cycles are irregular and the military risks associated with stock-out positions have no commercial parallel. The Department holds materiel based on military need and support for contingencies. The Department does not attempt to account separately for "inventory held for sale" and "inventory held in reserve for future sale" based on SFFAS No. 3 definitions, unless otherwise noted.

Related property includes OM&S and stockpile materiel. The OM&S, including munitions not held for sale, are valued at standard purchase price. The Department uses both the consumption method and the purchase method of accounting for OM&S. Items that are centrally managed and stored, such as ammunition and engines, are generally recorded using the consumption method and are reported on the Balance Sheet as OM&S. When current systems cannot fully support the consumption method, the Department uses the purchase method. Under this method, materiel and supplies are expensed when purchased. During FY 2007, the Department expensed significant amounts using the purchase method because the systems could not support the consumption method or management deemed that the item was in the hands of the end user. This is a material weakness for the Department and long-term system corrections are in process. Once the proper systems are in place, these items will be accounted for under the consumption method of accounting.

The Department determined that the recurring high dollar value of OM&S in need of repair is material to the financial statements and requires a separate reporting category. Many high-dollar items, such as aircraft engines, are categorized as OM&S rather than military equipment.

The Department recognizes condemned materiel as "excess, obsolete, and unserviceable." The cost of disposal is greater than the potential scrap value; therefore, the net value of condemned materiel is zero. Potentially redistributed materiel, classified in previous years as "excess, obsolete, and unserviceable," is included in the "held for use" or "held for repair" categories according to its condition.

Inventory available and purchased for resale includes consumable spare and repair parts and repairable items owned and managed by the Department. This inventory is retained to support military or national contingencies. Inventory held for repair is damaged inventory that requires repair to make suitable for sale. Often, it is more economical to repair these items rather than to procure them. The Department often relies on weapon systems and machinery no longer in production. As a result, the Department supports a process that encourages the repair and rebuilding of certain items. This repair cycle is essential to maintaining a ready, mobile, and armed military force. Work in process balances include costs related to the production or servicing of items, including direct material, direct labor, applied overhead, and other direct costs. Work in process also includes the value of finished products or completed services that are yet to be placed in service and transferred to an asset account. Work in process includes munitions in production and depot maintenance work with its associated labor, applied overhead, and supplies used in the delivery of maintenance services.

### **1.N. Investments**

The Department reports investments in U.S. Treasury securities at cost, net of amortized premiums or discounts. Premiums or discounts are amortized over the term of the investment using the effective interest rate method or another method obtaining similar results. The Department's intent is to hold investments to maturity, unless they are needed to finance claims or otherwise sustain operations. Consequently, a provision is not made for unrealized gains or losses on these securities.

The Department invests in nonmarketable securities. The two types of nonmarketable securities are par value and market-based intragovernmental securities. The Bureau of the Public Debt issues nonmarketable par value intragovernmental securities. Nonmarketable, market-based intragovernmental securities emulate marketable securities, but are not publicly traded.

The Department's net investments are held by various trust and special funds. These funds include the Military Retirement Trust Fund; Medicare-Eligible Retiree Health Care Fund; Other Defense Organizations General Fund trust and special funds; donations (Gift Funds); and the USACE South Dakota Terrestrial Habitat Restoration, Inland Waterways, and Harbor Maintenance Trust Fund accounts.

Other investments represent limited partnerships entered into on behalf of the U.S. Government in support of the MHPI authorized by P.L. 104-106, Section 2801. These investments do not require market value disclosure.

## **1.O. General Property, Plant and Equipment**

The SFFAS No. 23, "Eliminating the Category National Defense Property, Plant, and Equipment," established GAAP for valuing and reporting military equipment (e.g., ships, aircraft, combat vehicles, weapons) in federal financial statements. The Standard provided for the use of estimated historical cost for valuing military equipment if obtaining actual historical cost information is not practical. The Department used the Bureau of Economic Analysis (BEA) estimation methodology to calculate the value of the military equipment for reporting periods from October 1, 2002, through March 31, 2006.

Effective 3rd Quarter, FY 2006, the Department replaced the BEA estimation methodology with one based on departmental internal records for military equipment. The Department identified the universe of military equipment by accumulating information relating to program funding and associated military equipment, equipment useful life, program acquisitions, and disposals to create a baseline. The military equipment baseline is updated using expenditure information and information related to acquisitions and disposals.

In FY 2006, the Department revised the real property capitalization threshold from \$100 thousand to \$20 thousand. The current \$100 thousand capitalization threshold remains unchanged for the remaining General Property, Plant and Equipment (PP&E) categories. Not all Military Departments have implemented this revised policy due to system and process limitations. General PP&E assets are capitalized at historical acquisition cost plus capitalized improvements when an asset has a useful life of two or more years and the acquisition cost equals or exceeds the Department's capitalization threshold. The Department also requires capitalization of improvement costs over the Department's capitalization threshold. The Department depreciates all General PP&E, other than land, on a straight-line basis.

Prior to FY 1996, General PP&E was capitalized if it had an acquisition cost of \$15 thousand, \$25 thousand, and \$50 thousand for FYs 1993, 1994, and 1995 respectively, and an estimated useful life of two or more years. General PP&E previously capitalized at amounts below \$100 thousand was written off General Fund financial statements in FY 1998. No adjustment was made for WCF assets that remain capitalized and reported on WCF financial statements.

The USACE Civil Works General PP&E is capitalized at historical acquisition cost plus capitalized improvements when an asset has a useful life of two or more years and the acquisition cost exceeds \$25 thousand. One exception is that all buildings and structures related to hydropower projects are capitalized regardless of cost. Prior to FY 2004, the USACE capitalized all buildings and structures regardless of cost. In FY 2003, the USACE increased the threshold (effective FY 2004) for buildings and structures to \$25 thousand for all Civil Works appropriations with the exception of Revolving Fund and Power Marketing Agency assets and expensed all previously acquired assets that did not meet the new \$25 thousand threshold.

When it is in the best interest of the government, the Department provides government property to contractors to complete contract work. The Department either owns or leases such property, or it is purchased directly by the contractor for the government based on contract terms. When the value of contractor-procured General PP&E exceeds the Department's capitalization threshold, federal accounting standards require that it be reported on the Department's Balance Sheet.

The Department is developing new policies and a contractor reporting process for Government furnished equipment that will provide appropriate General PP&E information for future financial statement reporting purposes. Accordingly, the Department reports only government property in the possession of contractors that is maintained in the Department's property systems. The Department has issued new property accountability and reporting requirements for Department entities to maintain, in their property systems, information on all property furnished to contractors. This action and other proposed actions are structured to capture and report the information necessary for compliance with federal accounting standards.

## **1.P. Advances and Prepayments**

The Department's policy is to record advances and prepayments in accordance with GAAP. As such, payments made in advance of the receipt of goods and services are reported as assets on the Balance Sheet. The Department's policy is to expense or capitalize assets when the related goods and services are received. Not all Department entities have implemented this policy primarily due to system limitations.

## **1.Q. Leases**

Lease payments for the rental of equipment and operating facilities are classified as either capital or operating leases. When a lease is essentially equivalent to an installment purchase of property (a capital lease), and the value equals or exceeds the current capitalization threshold, the Department records the applicable asset and liability. The Department records the amounts as the lesser of the present value of the rental and other lease payments during the lease term (excluding portions representing executory costs paid to the lessor) or the asset's fair market value. The discount rate for the present value calculation is either the lessor's implicit interest rate or the Government's incremental borrowing rate at the inception of the lease. The Department as the lessee receives the use and possession of leased property, for example real estate or equipment, from a lessor in exchange for a payment of funds. An operating lease does not substantially transfer all the benefits and risk of ownership. Payments for operating leases are charged to expense over the lease term as they become payable.

Office space and leases entered into by the Department are the largest component of operating leases. These costs were gathered from existing leases, General Services Administration (GSA) bills, and interservice support agreements. Future year projections use the consumer price index (CPI) rather than the Department's inflation factor.

## **1.R. Other Assets**

Other assets include those assets, such as military and civil service employee pay advances, travel advances, and certain contract financing payments that are not reported elsewhere on the Department's Balance Sheet.

The Department conducts business with commercial contractors under two primary types of contracts: fixed price and cost reimbursable. To alleviate the potential financial burden on the contractor that long-term contracts can cause, the Department may provide financing payments. Contract financing payments are defined in the Federal Acquisition Regulation, Part 32, as authorized disbursements of monies to a contractor prior to acceptance of supplies or services by the Government. Contract financing payment clauses are incorporated in the contract terms and conditions and may include advance payments, performance-based payments, commercial advances and interim payments, progress payments based on cost, and interim payments under certain cost-reimbursement contracts.

Contract financing payments do not include invoice payments, payments for partial deliveries, lease and rental payments, or progress payments based on a percentage or stage of completion. The Defense Federal Acquisition Regulation Supplement authorizes progress payments based on a percentage or stage of completion only for construction of real property, shipbuilding and ship conversion, alteration, or repair. Progress payments for real property and ships are reported as construction in progress. It is the Department's policy to record certain contract financing payments as other asset.

## **1.S. Contingencies and Other Liabilities**

The SFFAS No. 5, "Accounting for Liabilities of the Federal Government," as amended by SFFAS No. 12, "Recognition of Contingent Liabilities Arising from Litigation," defines a contingency as an existing condition, situation, or set of circumstances that involves an uncertainty as to possible gain or loss. The uncertainty will be resolved when one or more future events occur or fail to occur. The Department recognizes contingent liabilities when past events or exchange transactions occur, a future loss is probable, and the loss amount can be reasonably estimated.

Financial statement reporting is limited to disclosure when conditions for liability recognition do not exist but there is at least a reasonable possibility of incurring a loss or additional losses. Examples of loss contingencies include the collectibility of receivables, pending or threatened litigation, and possible claims and assessments. The Department's risk of loss and resultant contingent liabilities arise from pending or threatened litigation or claims and assessments due to events such as aircraft, ship and vehicle accidents; medical malpractice; property or environmental damages; and contract disputes.

Other liabilities arise as a result of anticipated disposal costs for the Department's assets. This type of liability has two components: nonenvironmental and environmental. Consistent with SFFAS No. 6, "Accounting for Property, Plant and Equipment," recognition of an anticipated environmental disposal liability begins when the asset is placed into service. Based on the Department's policy, which is consistent with SFFAS No. 5 "Accounting for Liabilities of the Federal Government," nonenvironmental disposal liabilities are recognized for assets when management decides to dispose of an

asset. The Department recognizes nonenvironmental disposal liabilities for military equipment nuclear-powered assets when placed into service. Such amounts are developed in conjunction with, and not easily identifiable from, environmental disposal costs.

### **1.T. Accrued Leave**

The Department reports liabilities for military leave and accrued annual leave for DoD civilians. Sick leave for DoD civilians is expensed when taken. The liability reported at the end of the accounting period reflects the current pay rates.

### **1.U. Net Position**

Net position consists of unexpended appropriations and cumulative results of operations.

Unexpended appropriations represents amounts of authority that are unobligated and have not been rescinded or withdrawn. Unexpended appropriations also represent amounts obligated for which legal liabilities for payments have not been incurred.

Cumulative results of operations represents the net difference between expenses and losses, and financing sources (including appropriations, revenue, and gains), since inception. Beginning with FY 1998, cumulative results of operations also includes donations and transfers in and out of assets that were not reimbursed.

### **1.V. Treaties for Use of Foreign Bases**

The Department has the use of land, buildings, and other overseas facilities that are obtained through various international treaties and agreements negotiated by the Department of State. The Department purchases capital assets overseas with appropriated funds; however, the host country retains title to the land and capital improvements. Generally, treaty terms allow the Department continued use of these properties until the treaties expire. In the event treaties or other agreements are terminated, whereby use of the foreign bases is prohibited, losses are recorded for the value of any nonretrievable capital assets. The settlement due to the U.S. or host nation is negotiated and takes into account the value of capital investments and may be offset by the cost of environmental cleanup.

### **1.W. Comparative Data**

The Department's financial statements and notes are presented on a comparative basis.

### **1.X. Unexpended Obligations**

The Department obligates funds to provide goods and services for outstanding orders not yet delivered. Unless title has passed, the financial statements do not reflect a liability for payment for goods and services not yet delivered. Unexpended obligations includes both obligations for which goods and services have been delivered (title passed) and a liability recognized, and obligations for which no delivery has occurred and no liability recognized. The balance of unexpended obligations appears immediately before net outlays in the Statement of Budgetary Resources, and is referred to as "Total, unpaid obligated balances, net, end of period."

### **1.Y. Undistributed Disbursements and Collection**

Undistributed disbursements and collections represent the difference between disbursements and collections matched at the transaction level to a specific obligation, payable, or receivable in the activity field records as opposed to those reported by the U.S. Treasury. These amounts should agree with the undistributed amounts reported on the departmental accounting reports. In-transit payments are those payments that have been made, but have not been recorded in the fund holder's accounting records. These payments are applied to the outstanding accounts payable balance. In-transit collections are those collections from other agencies or entities that have not been recorded in the accounting records. These collections are applied to the accounts receivable balance.

The Department's policy is to allocate supported undistributed disbursements and collections between federal and nonfederal categories based on the percentage of distributed federal and nonfederal accounts payable and accounts receivable. Unsupported undistributed disbursements are recorded in accounts payable. Unsupported undistributed collections are recorded in other liabilities.

### 1.Z. Significant Events

In FY 2007 the Department made several modifications to its financial reports and notes that had significant and pervasive effects. These changes are summarized below:

In response to updated reporting requirements from OMB, the Department began reporting in its basic financial statements all activity for the programs it administers on behalf of the Executive Office of the President including the Foreign Military Sales Program (FMS). Previously, the Department reported these programs as "Other Accompanying Information" in its Performance and Accountability Report.

Prior to FY 2007, the Department had reported the current year changes only in undelivered orders, contract authority, collections, and disbursements for FMS. Based on changes to accounting and reporting methodologies, the Department now correctly reflects undelivered orders, contract authority, and Fund Balance with Treasury (FBWT) for FMS in its financial statements and notes with cumulative-from-inception balances.

In addition, the Department no longer reports FMS undelivered orders and FBWT in the Statement of Custodial Activity (SCA). The Department's remaining custodial activity is immaterial and incidental to its primary mission. Therefore, the Department is no longer producing a SCA. Note 22 has been renamed and revised to report "Incidental Custodial Collections."

In accordance with updated reporting requirements in OMB Circular A-136, the Department eliminated the Statement of Financing and began presenting the information formerly contained in the Statement in Note 21 "Reconciliation of Net Cost of Operations to Budget."

## Note 2. Nonentity Assets

As of September 30	2007	2006 Restated
(amounts in millions)		
Intragovernmental Assets		
Fund Balance with Treasury	\$ 9,926.3	\$ 2,896.6
Accounts Receivable	0.9	11.6
Total Intragovernmental Assets	9,927.2	2,908.2
Nonfederal Assets		
Cash and Other Monetary Assets	14,879.6	2,085.2
Accounts Receivable	5,162.9	5,486.7
Other Assets	9,386.9	196.8
Total Nonfederal Assets	29,429.4	7,768.7
Total Nonentity Assets	39,356.6	10,676.9
Total Entity Assets	1,466,988.9	1,361,961.0
Total Assets	\$ 1,506,345.5	\$ 1,372,637.9

Nonentity assets are assets for which the Department maintains stewardship accountability and responsibility to report, but are not available for the Department's operations.

Nonentity Fund Balance with Treasury is comprised of deposit funds, seized Iraqi cash, the Development Fund for Iraq (DFI), and advances from foreign governments for Foreign Military Sales Trust Funds (FMSTF) for the purchase of defense articles

and services. Deposit funds are generally used to record amounts held temporarily until paid to the appropriate party. Seized Iraqi cash is former Iraqi regime monies confiscated by coalition forces and restricted for support of the Iraqi people. The DFI consists of proceeds from Iraqi oil sales, repatriated assets from the United States and other nations, and deposits from unencumbered oil-for-food proceeds. The DFI funds are restricted for Iraqi infrastructure and other Iraqi support needs.

Intragovernmental Accounts Receivable consists of amounts due from cancelled appropriations.

Nonfederal Cash and Other Monetary Assets consists of cash received from foreign governments deposited in the Federal Reserve Bank, U.S. commercial banks and foreign banks; and cash held by Disbursing Officers to carry out payment, collection, and foreign currency accommodation exchange missions.

Nonfederal Accounts Receivable consists of amounts due for cancelled year appropriations; and interest, fines and penalties due on debt. The Department generally cannot use the collections and must distribute them to the U.S. Treasury. The Department has specific statutory authority to retain collections from certain cancelled year accounts receivable as entity assets.

Nonfederal Other Assets primarily consists of advances paid to contractors for undelivered defense articles and services owed to foreign governments.

The Department is reporting nonentity balances of Fund Balance with Treasury of \$8.5 billion, Cash and Other Monetary Assets of \$12.4 billion, and Other Assets of \$9.2 billion on behalf of the Executive Office of the President. The Department holds these amounts as stewards on the behalf of others and are therefore, not available for use by the Department.

### Note 3. Fund Balance with Treasury

As of September 30	2007	2006 Restated
(amounts in millions)		
Fund Balances		
Appropriated Funds	\$ 383,074.3	\$ 313,962.4
Revolving Funds	11,021.1	9,619.6
Trust Funds	9,703.5	2,212.2
Special Funds	396.5	328.1
Other Fund Types	2,971.6	2,922.8
Total Fund Balances	407,167.0	329,045.1
Fund Balances Per Treasury Versus Agency		
Fund Balance per Treasury	399,862.9	329,921.4
Fund Balance per Agency	407,167.0	329,045.1
Reconciling Amount	\$ (7,304.1)	\$ 876.3

Fund Balance with Treasury includes immaterial nonentity balances the Department holds on behalf of others, and entity balances which represent funds with Treasury for which the Department is authorized to make expenditures and pay liabilities. It reflects the balance of all fund types held by the Department.

Other Fund Types primarily consists of deposit funds, receipt accounts, clearing accounts, seized Iraqi cash, Development Fund for Iraq, and Foreign Military Sales Trust Funds (FMSTF) advance deposits.

The Department shows a reconciling net difference of (\$7.3) billion with the U.S. Treasury. This includes (\$11.9) billion differences due to the U.S. Treasury treatment of allocation transfers, offset by \$3.2 billion in cancelled appropriations and \$1.4 billion in unavailable receipt accounts.

The balance in Fund Balance with Treasury includes \$11.9 billion (\$3.4 billion entity and \$8.5 billion nonentity) that the Department is executing on behalf of the Executive Office of the President. The Department holds these amounts as stewards on the behalf of others and are therefore, not available for use by the Department.

Status of Fund Balance with Treasury		
As of September 30	2007	2006 Restated
(amounts in millions)		
Unobligated Balance		
Available	\$ 99,188.4	\$ 75,403.0
Unavailable	338,343.1	302,061.5
Obligated Balance not yet Disbursed	437,085.6	323,823.5
Nonbudgetary FBWT	4,755.7	7,640.4
NonFBWT Budgetary Accounts	(472,205.8)	(379,883.3)
Total	\$ 407,167.0	\$ 329,045.1

The Status of Fund Balance with Treasury is the reconciliation between budgetary and proprietary accounts at Treasury. It consists of unobligated and obligated balances. The balances reflect the budgetary authority remaining for disbursement against current or future obligations.

Unobligated Balance is classified as available or unavailable and represents the cumulative amount of budgetary authority that has not been set aside to cover outstanding obligations. The unavailable balance consists primarily of funds invested in U.S. Treasury securities that are temporarily precluded from obligation by law.

Obligated Balance not yet Disbursed represents funds that have been obligated for goods and services not received, and those received but not paid.

Nonbudgetary FBWT includes accounts that do not have budgetary authority, such as deposit funds, receipt accounts, clearing accounts, and nonentity FBWT.

NonFBWT Budgetary Accounts reduces the Status of FBWT and consists of investments in U.S. Treasury securities, contract and borrowing authority, unfilled customer orders without advance, and receivables.

Certain unobligated balances are restricted for future use and are not apportioned for current use. Unobligated balances for trust fund accounts are restricted for use by the Public Law that established the funds.

Disclosures Related to Suspense/Budget Clearing Accounts				
As of September 30	2005	2006	2007	(Decrease)/ Increase FY 2006-2007
(amounts in millions)				
Account				
F3845 – Personal Property Proceeds	\$ 0.9	\$ 0.7	\$ 0.8	\$ 0.1
F3875 – Budget Clearing Account Suspense	263.5	903.9	20.0	(883.9)
F3880 – Lost or Cancelled Treasury Checks	11.9	26.4	5.8	(20.6)
F3882 – Uniformed Services Thrift Savings Plan Suspense	83.5	108.5	115.8	7.3
F3885 – Interfund/IPAC Suspense	(211.6)	(114.9)	(100.2)	14.7
F3886 – Thrift Savings Plan Suspense	(4.9)	(6.4)	(10.1)	(3.7)
Total	\$ 143.3	\$ 918.2	\$ 32.1	\$ (886.1)

## Abnormal Balances

The (\$10.1) million balance for F3886 suspense account reflects the timing differences due to the additional processing time for negative adjustments, lost earnings, forfeitures, and loan repayments.

## Other Disclosures

The F3845 suspense account represents the balance of proceeds from the sale of personal property.

The F3875 and F3885 suspense accounts temporarily hold collections or disbursements until identified and applied to a valid appropriation.

The F3880 suspense account represents the balance of U.S. Treasury checks that: (1) have either been lost by the payee and need to be reissued, (2) have never been cashed by the payee, or (3) have been cancelled by the U.S. Treasury and need to be transferred to the original appropriation.

The F3882 and F3886 suspense accounts represent the difference between retirement funds withheld from members of the uniformed services and civilians employed by the Department and amounts transferred to the Federal Retirement Thrift Investment Board, who administers the Thrift Savings Plan.

Disclosures Related to Problem Disbursements and In-Transit Disbursements				
As of September 30	2005	2006 Restated	2007	(Decrease)/ Increase from FY 2006 – 2007
(amounts in millions)				
Total Problem Disbursements, Absolute Value				
Unmatched Disbursements (UMDs)	\$ 2,225.3	\$ 1,353.4	\$ 1,414.1	\$ 60.7
Negative Unliquidated Obligations (NULO)	95.5	78.6	107.9	29.3
In-Transit Disbursements	6,869.4	6,994.3	7,534.3	540.0
Total	\$ 9,190.2	\$ 8,426.3	\$ 9,056.3	\$ 630.0

The Department reports Problem Disbursements as an absolute value, which is the sum of the debit and credit transactions without regard to the sign.

An Unmatched Disbursement occurs when a payment does not match an obligation in the accounting system.

A Negative Unliquidated Obligation occurs when a payment matches, but exceeds a valid obligation in the accounting system.

In-Transit Disbursements represents disbursements and collections made by a disbursing activity on behalf of an accountable activity and not posted to the accounting system.

The amounts reported in FY 2005 and FY 2006 were changed to correct balances and to change reporting methodology from net to absolute for In-Transit Disbursements.

### Amortization Method Used: Effective Interest

The market value of the non-marketable securities held by the Department fluctuates in tandem with the current selling price of the equivalent marketable security on the open bond market. It is the intent of the Department to hold the investments to maturity to prevent losses on the securities.

The Federal Government does not set aside assets to pay future benefits and expenditures associated with earmarked funds. The cash generated from earmarked funds is deposited in the U.S. Treasury, which uses the cash for general Government purposes. The U.S. Treasury securities are issued to the earmarked funds as evidence of its receipts. The U.S. Treasury securities are an asset to the Department and a liability to the U.S. Treasury. Because the Department and the U.S. Treasury are both parts of the Government, these assets and liabilities offset each other from the standpoint of the Government as a whole. For this reason, they do not represent an asset or a liability in the U.S. Governmentwide financial statements.

The U.S. Treasury securities provide the Department with authority to draw upon the U.S. Treasury to make future benefit payments or other expenditures. When the Department requires redemption of these securities, the Government finances the

securities out of accumulated cash balances, by raising taxes or other receipts, by borrowing from the public or repaying less debt, or by curtailing other expenditures. This is the same way the Government finances all other expenditures.

Other Funds are primarily comprised of DoD Education Benefits Fund and Voluntary Separation Incentive investments.

## Note 5. Accounts Receivable

As of September 30 (amounts in millions)	2007			2006 Restated
	Gross Amount Due	Allowance For Estimated Uncollectibles	Accounts Receivable, Net	Accounts Receivable, Net

Less Eliminations	(7,166.8)	0.0	(6,986.3)	0.0
Less Other	(322.7)	19.4	(11.1)	38.5
Total	\$ 1,412.9	\$ 7,702.1	\$ 2,927.4	\$ 8,214.5

The prior year Intragovernmental accounts receivable on the aging schedule does not agree with the accounts receivable reported on the Balance Sheet. The FY 2006 aging schedule does not include \$14.4 million for the Foreign Military Account Program.

Nondelinquent noncurrent accounts receivable consists of nonfederal receivables of \$1.6 billion on repayment schedules primarily for long term water storage contracts with state and local municipalities. The balance represents intragovernmental accounts receivable collected but not posted to accounting systems.

The Intragovernmental Other consists of pending customer returns.

The Nonfederal Other reflects reconciling differences between the general and subsidiary ledgers.

The Department generates debt letters and pursues all debts over 30 days delinquent. For debts over 180 days delinquent, the Department utilizes various offset programs and collection agencies to pursue collections. In certain instances, the status of litigation affects the Department's ability to pursue collection actions.

## Note 6. Other Assets

As of September 30	2007	2006
(amounts in millions)		
Intragovernmental Other Assets		
Advances and Prepayments	\$ 1,087.6	\$ 1,064.7
Other Assets	124.9	124.9
Total Intragovernmental Other Assets	1,212.5	1,189.6
Nonfederal Other Assets		
Outstanding Contract Financing Payments	25,030.3	25,630.4
Advances and Prepayments From Foreign Governments	8,015.3	0.0
Advances and Prepayments From the Public	1,549.6	1,176.2
Other Assets (With the Public)	1,650.9	1,122.1
Total Nonfederal Other Assets	36,246.1	27,928.7
Total Other Assets	\$ 37,458.6	\$ 29,118.3

Intragovernmental Other Assets consists of the Department's right to approximately six million barrels of crude oil held by the Department of Energy.

Advances and Prepayments From Foreign Governments is comprised of advances paid to contractors for undelivered defense articles and services owed to foreign governments under the Foreign Military Sales Program.

Contract terms and conditions for certain types of contract financing payments convey rights to the Department that protect the contract work from state or local taxation, liens or attachment by the contractor's creditors, transfer of property, or disposition in bankruptcy; however, these rights should not be misconstrued to mean that ownership of the contractor's work has transferred to the Government. The Government is obligated to make financing payments in accordance with contract terms, but does not have the right to take the work except as provided for in contract clauses related to termination or acceptance.

Outstanding Contract Financing Payments balance of \$25.0 billion is comprised of \$23.4 billion in contract financing payments and an additional \$1.7 billion in estimated future payments to the contractor upon delivery and Government acceptance of a satisfactory product. (See additional discussion in Note 15, Other Liabilities.)

Nonfederal Other Assets consists primarily of undelivered assets.

The balance in Other Assets includes \$9.4 billion that the Department is executing on behalf of the Executive Office of the President. The Department holds these amounts as stewards on the behalf of others and the assets are therefore, not available for use by the Department.

## Note 7. Cash and Other Monetary Assets

As of September 30	2007	2006
(amounts in millions)		
Cash	\$ 13,907.0	\$ 1,389.0
Foreign Currency	1,121.0	810.8
Total Cash, Foreign Currency, & Other Monetary Assets	\$ 15,028.0	\$ 2,199.8

The Department began reporting the accrued assets, liabilities, and expenses of the Foreign Military Sales Trust Fund during FY 2007, resulting in the recognition of an additional \$12.4 billion in cash. Nonentity assets of \$15.0 billion, consisting of \$13.7 billion in cash and \$1.1 billion in foreign currency which are restricted and unavailable for use in the Department's mission.

The balance in Cash includes \$12.4 billion that the Department is executing on behalf of the Executive Office of the President. The Department holds these amounts as stewards on the behalf of others and are therefore, not available for use by the Department.

## Note 8. Direct Loan and/or Loan Guarantee Programs

### Direct Loan and/or Loan Guarantee Programs

The Department operates the following direct loan and loan guarantee programs:

- Foreign Military Account Program (FMA)
- Military Housing Privatization Initiative (MHPI)
- Armament Retooling and Manufacturing Support Initiative (ARMS)

The Federal Credit Reform Act of 1990 governs all amended direct loan obligations and loan guarantee commitments made after FY 1991 and the resulting direct loans or loan guarantees. The OMB Circular A-11, section 185, "Federal Credit" and OMB Circular A-129 provide additional guidance for direct loan and loan guarantee programs.

Direct loans are reported at the net present value of the following projected cash flows:

- Loan disbursements;
- Repayments of principal; and
- Payments of interest and other payments over the life of the loan after adjusting for estimated defaults, prepayments, fees, penalties and other recoveries.

Loan guarantee liabilities are reported at the net present value. The cost of the loan guarantee is the net present value of the following estimated projected cash flows:

- Payments by the Department to cover defaults and delinquencies, interest subsidies, or other payments; offset by
- Payments to the Department including origination and other fees, penalties, and recoveries.

### Foreign Military Account Program

The FMA is a military assistance program that includes both direct loan and loan guarantee programs. The Department is authorized by the U.S. Congress to execute the authorities of the Foreign Assistance Act of 1961, as amended, section 503(a) and the Arms Export Control Act of 1976, as amended, section 23. The Defense Security Cooperation Agency, under the auspices of the Executive Office of the President (EOP), administers the FMA program. The FMA program is comprised of: (1) the pre 1992 Foreign Military Loan Liquidating Account, (2) the post 1991 Foreign Military Financing Account, and (3) the post 1991 Military Debt Reduction Financing Account.

### Military Housing Privatization Initiative

The MHPI includes both direct loan and loan guarantee programs. The loan guarantee program is authorized by the National Defense Authorization Act for FY 1996, Public Law 104-106, Statute 186, Section 2801, and includes a series of authorities that allow the Department to work with the private sector to renovate and build military family housing. The MHPI accelerates the construction of new housing, builds to market standards, and leverages private sector capital with government dollars. The Department provides protection to the private sector partner against specific risks, such as base closure or member deployment.

### Armament Retooling and Manufacturing Support Initiative

The ARMS Initiative, authorized by Title 10 United States Code 4551-4555, is a loan guarantee program designed to incentivize commercial use of the Army's inactive ammunition plants for businesses willing to locate to a government ammunition production facility. The production capacity of these facilities is greater than current military requirements; however, this capacity may be needed in the future. Revenues from property rental are used to help offset the overhead costs for the operation, maintenance and environmental cleanup at the facilities.

In an effort to preclude additional loan liability, the Army instituted an ARMS loan guarantee moratorium in FY 2004. The Army continues to operate under the moratorium and does not anticipate new loans.

Summary of Direct Loans and Loan Guarantees		
As of September 30	2007	2006 Restated
(amounts in millions)		
Loans Receivable		
Direct Loans		
Foreign Military Loan Liquidating Account	\$ 2,683.2	\$ 2,865.6
Military Housing Privatization Initiative	212.1	191.7
Foreign Military Financing Account	92.7	573.5
Military Debt Reduction Financing Account	219.0	224.3
Total Direct Loans	3,207.0	3,855.1
Defaulted Loan Guarantees		
Armament Retooling & Manufacturing Support Initiative	0.1	0.0
Total Default Loan Guarantees	0.1	0.0
Total Loans Receivable	3,207.1	3,855.1
Loan Guarantee Liability		
Military Housing Privatization Initiative	24.7	23.8
Armament Retooling & Manufacturing Support Initiative	0.3	13.0
Total Loan Guarantee Liability	\$ 25.0	\$ 36.8

Loans receivable, net, or value of assets related to loans, is not the same as the proceeds the Department would expect to receive from selling the loans.

Direct Loans Obligated		
As of September 30	2007	2006 Restated
(amounts in millions)		
Direct Loans Obligated Prior to FY 1992		
(Allowance for Loss Method):		
Foreign Military Loan Liquidating Account		
Loans Receivable Gross	\$ 1,364.2	\$ 1,629.3
Interest Receivable	1,319.0	1,236.3
Value of Assets Related to Direct Loans, Net	2,683.2	2,865.6
Direct Loans Obligated After FY 1991		
(Present Value Method):		
Military Housing Privatization Initiative		
Loans Receivable Gross	308.0	296.3
Allowance for Subsidy Cost (Present Value)	(95.9)	(104.6)
Value of Assets Related to Direct Loans	212.1	191.7
Foreign Military Financing Account		
Loans Receivable Gross	0.0	214.4

Armament Retooling & Manufacturing Support Initiative	1.0	11.8
Total	\$ 0.8	\$ 5.4

### Subsidy Rates for Loan Guarantees

There are no subsidy rates to report because the Department did not have any new loan guarantees in FY 2007.

Schedule for Reconciling Loan Guarantee Liability Balances for Post FY 1991 Loan Guarantees		
As of September 30	2007	2006
(amounts in millions)		
Beginning Balance of the Loan Guarantee Liability	\$ 36.8	\$ 41.1
Add: Subsidy Expense for Guaranteed Loans Disbursed during the Reporting Years	0.0	0.0
Adjustments		
Foreclosed Property and Loans Acquired	2.3	0.0
Claim Payments to Lenders	(15.3)	(11.4)
Interest Accumulation on the Liability Balance	0.6	1.7
Other	(0.2)	0.0
Total of the above Adjustments	(12.6)	(9.7)
Ending Balance of the Loan Guarantee Liability before Reestimates	24.2	31.4
Add or Subtract Subsidy Reestimates by Component		
Interest Rate Reestimate	2.1	0.2
Technical/default Reestimate	(1.3)	5.2
Total of the above Reestimate Components	0.8	5.4
Ending Balance of the Loan Guarantee Liability	\$ 25.0	\$ 36.8

### Administrative Expenses

Administrative Expenses are limited to separately identified expenses for administering direct loans and loan guarantee programs. The Department does not maintain a separate program to capture the expenses related to direct loans and loan guarantees for MHPI and the FMA. Administrative expenses for ARMS represent a fee paid to U.S. Department of Agriculture, Rural Business Cooperative.

## Note 9. Inventory and Related Property

Legend for Valuation Methods: Adjusted LAC = Latest Acquisition Cost, adjusted for holding gains and losses SP = Standard Price AC = Actual Cost NRV = Net Realizable Value MAC = Moving Average Cost					

### Restrictions

Generally, there are no restrictions on the use, sale, or disposition of inventory. However, some restrictions currently do exist, and they include the following:

- War reserve materiel valued at \$2.1 billion;
- Commissary items valued at \$341.9 million for purchase by authorized patrons;
- Dispositions pending litigation or negotiation valued at \$1.5 million; or
- Identified safety stocks restricted from sale outside the federal government.

There are no known restrictions on inventory disposition as related to environmental or other liabilities.

### General Composition of Inventory

Inventory includes spare and repair parts, clothing and textiles, and fuels held for sale by the Defense Working Capital Funds. Inventory is tangible personal property that is:

- Held for sale, or held for repair and eventual sale;
- In the process of production for sale; or
- To be consumed in the production of goods for sale or in the provision of service for a fee.

The Department assigns inventory items to a category based upon the type and condition of the asset.

Operating Materials and Supplies, Net					
As of September 30	2007			2006	
(amounts in millions)	OM&S Gross Value	Revaluation Allowance	OM&S, Net	OM&S, Net	Valuation Method
OM&S Categories

Held for Repair	17,021.7	(1,108.5)	15,913.2	16,266.1	SP, LAC,MAC
Excess, Obsolete, and Unserviceable	2,387.3	(2,387.3)	0	0	NRV
Total	\$ 143,367.8	\$ (3,496.6)	\$ 139,871.2	\$ 146,883.3	
Legend for Valuation Methods: Adjusted LAC = Latest Acquisition Cost, adjusted for holding gains and losses SP = Standard Price NRV = Net Realizable Value MAC = Moving Average Cost					

### Restrictions

Some munitions included in Operating Materials and Supplies (OM&S) are restricted due to condition. Restricted munitions are considered obsolete or unserviceable when they cannot be expected to meet performance requirements. Obsolete and unserviceable OM&S may be used in emergency combat situations in which no other suitable munitions are immediately available.

### General Composition of Operating Materials and Supplies

The OM&S includes spare and repair parts, ammunition, tactical missiles, aircraft configuration pods, and centrally managed aircraft engines held for consumption.

The Department assigns OM&S items to a category based upon the type and condition of the asset.

Stockpile Materials, Net					
As of September 30	2007			2006	
(amounts in millions)	Stockpile Materials Amount	Allowance for Gains (Losses)	Stockpile Materials, Net	Stockpile Materials, Net	Valuation Method
Stockpile Materials Categories					
Held for Sale	\$ 857.2	\$ 0.0	\$ 857.2	\$ 984.7	AC, LCM
Held in Reserve for Future Sale	29.3	0.0	29.3	94.1	AC, LCM
Total	\$ 886.5	\$ 0.0	\$ 886.5	\$ 1,078.8	
Legend for Valuation Methods: AC = Actual Cost LCM = Lower of Cost or Market					

### Restrictions

Stockpile materials held by the National Defense Stockpile (NDS) are restricted until relieved by congressional action and made available for sale on the open market. Stockpile materials may not be disposed except for: (1) necessary upgrading, refining, or processing, (2) necessary rotation to prevent deterioration, (3) determination as excess with potential financial loss if retained, or (4) as authorized by law.

In 1994, the NDS voluntarily suspended mercury sales. The suspension was in response to concerns raised by the U.S. Environmental Protection Agency regarding the accumulation of mercury in the global environment.

The Requirements Report to Congress proposes additional restrictions on the use of beryllium metal, mica block, and quartz.

### General Composition of Stockpile Materiel

The Department holds strategic and critical stockpile materiel due to statutory requirements for use in national defense, conservation, or national emergencies.

Before any materiel are sold, Congress must enact specific enabling legislation (e.g., the National Defense Authorization Act). When authorized to offer materiel for sale, NDS removes the materiel from Materiel Held in Reserve and reclassifies them as Materiel Held for Sale. The estimated market price of the stockpile materiel held for sale is \$1.2 billion.

## Note 10. General PP&E, Net

<sup>1</sup> Note 15 for additional information on Capital Leases						
Legend for Valuation Methods: S/L = Straight Line N/A = Not Applicable						

### Military Equipment

In accordance with the Statement of Federal Financial Accounting Standards (SFFAS) No. 23, "Eliminating the Category National Defense Property, Plant, and Equipment," beginning in FY 2003, the Department capitalized military equipment into General Property, Plant, and Equipment (PP&E) at estimated historical cost using information obtained from the Bureau of Economic Analysis (BEA). During FY 2006, the Department replaced the BEA estimates with one based on departmental internal records for military equipment.

### Heritage Assets and Stewardship Land

The Federal Accounting Standards Advisory Board, SFFAS No. 29, "Heritage Assets and Stewardship Land," requires note disclosures for these types of assets. The Department's policy is to preserve and account for its heritage assets' historical, cultural, educational, or artistic importance. Additionally, the Department possesses and maintains land not acquired in connection with General PP&E, land donated to the Federal Government, and land previously recorded as public domain.

Heritage Assets within the Department consist of buildings and structures, archeological sites, museums, and monuments and memorials. Stewardship Land consists mainly of mission essential (donated, public domain, executive order) land. The Department, with minor exceptions, uses most of the buildings and structures as part of its everyday activities and includes them on the Balance Sheet as multi-use heritage assets (capitalized and depreciated).

### Other Disclosures

The Department has the use of land, buildings, and other overseas facilities that are obtained through international treaties and agreements negotiated by the Department of State. The Department is restricted by treaty covenants regarding the use and disposal of real property (land and buildings) located outside the continental United States.

The Department does not have the acquisition value for all General PP&E and uses several cost methodologies to provide General PP&E values for financial statement reporting purposes.

Other primarily consists of assets awaiting disposal and the projected value of forest product sales.

Assets Under Capital Lease		
As of September 30	2007	2006
(amounts in millions)		
Entity as Lessee, Assets Under Capital Lease		
Land and Buildings	\$ 719.5	\$ 619.6
Equipment	263.2	8.2
Accumulated Amortization	(501.4)	(478.1)
Total Capital Leases	\$ 481.3	\$ 149.7

### Note 11. Liabilities Not Covered by Budgetary Resources

As of September 30	2007	2006 Restated
(amounts in millions)		
Intragovernmental Liabilities		
Accounts Payable	\$ 3.3	\$ 1.0
Debt	1,850.0	1,842.3
Other	6,986.1	7,780.8
Total Intragovernmental Liabilities	8,839.4	9,624.1
Nonfederal Liabilities		
Accounts Payable	461.8	371.9
Military Retirement and Other Federal Employment Benefits	1,547,796.2	1,524,140.2
Environmental Liabilities	68,718.8	65,343.7
Other Liabilities	13,904.4	14,664.4
Total Nonfederal Liabilities	1,630,881.2	1,604,520.2
Total Liabilities Not Covered by Budgetary Resources	1,639,720.6	1,614,144.3
Total Liabilities Covered by Budgetary Resources	411,006.3	349,048.9
Total Liabilities	\$ 2,050,726.9	\$ 1,963,193.2

Liabilities Not Covered by Budgetary Resources represents liabilities for which congressional action is generally needed to provide resources. The Department expects to receive the necessary budgetary resources to cover these liabilities in future budget years.

Intragovernmental Accounts Payable and Nonfederal Accounts Payable represent liabilities in cancelled appropriations that, if paid, will be disbursed using funds current in the year of disbursement.

Debt consists primarily of borrowing from the U.S. Treasury for loans made to foreign governments.

Intragovernmental Liabilities Other is comprised of custodial liabilities for non-entity assets. The amounts collected cannot be used by the Department and must be returned to the U.S. Treasury. Intragovernmental Liabilities Other also includes unfunded Federal Employees Compensation Act liabilities that were not due during FY 2007.

Military Retirement and Other Federal Employment Benefits is comprised of employee actuarial liabilities not due and payable during the current fiscal year. These liabilities are primarily comprised of \$813.5 billion in pension liabilities and \$726.3 billion in health benefit liabilities. (Refer to Note 17, Military Retirement and Other Federal Employment Benefits, for additional details and disclosures.)

Nonfederal Liabilities Other is comprised of unfunded annual leave, contingent liabilities, and expected expenditures for disposal of conventional munitions.

## Note 12. Accounts Payable

As of September 30 (amounts in millions)	2007			2006 Restated
	Accounts Payable	Interest, Penalties, and Administrative Fees	Total	Total
Intragovernmental Payables	\$ 1,911.5	\$ N/A	\$ 1,911.5	\$ 1,549.8
Nonfederal Payables (to the Public)	29,671.7	2.3	29,674.0	27,388.4
Total	\$ 31,583.2	\$ 2.3	\$ 31,585.5	\$ 28,938.2

Accounts payable are amounts owed to federal and nonfederal entities for goods and services received by the Department that have not been paid. The Department's systems do not track intragovernmental transactions by customer at the transaction level. Therefore, buyer-side balances are adjusted to agree with seller-side balances for revenue, accounts receivable, and unearned revenue. Accounts payable were adjusted by reclassifying amounts between federal and nonfederal accounts payable.

## Note 13. Debt

As of September 30 (amounts in millions)	2007			2006 Restated	
	Beginning Balance	Net Borrowing	Ending Balance	Net Borrowing	Ending Balance
Agency Debt (Intragovernmental)					
Debt to the Treasury	\$ 659.0	\$ (170.5)	\$ 488.5	\$ 123.3	\$ 659.0
Debt to the Federal Financing Bank	3,038.8	(285.0)	2,753.8	(208.3)	3,038.8
Total Agency Debt	3,697.8	(455.5)	3,242.3	( 85.0)	3,697.8
Total Debt	\$ 3,697.8	\$ (455.5)	\$ 3,242.3	\$ ( 85.0)	\$ 3,697.8

The Department's debt consists of interest and principal payments due to the U.S. Treasury and the Federal Financing Bank. The Department borrows funds for the Foreign Military Financing Program, the Washington Aqueduct Project, the U.S. Navy Afloat Prepositioning Force Program, the Military Housing Privatization Initiative, and the Armanment Retooling and Manufacturing Support.

The majority of the debt represents direct and guaranteed loans to foreign governments. Before 1992, funds were borrowed from the Federal Financing Bank to either directly loan the funds to foreign governments or to reimburse defaulted guaranteed loans. Beginning in 1992, the Department began borrowing funds for the Foreign Military Account Program from the U.S. Treasury, in accordance with the Federal Credit Reform Act of 1990, which governs all direct loan obligations and loan guarantee commitments made after FY 1991.

The Department must pay the debt on direct loans if borrowers (e.g. foreign governments, county or city governments, ship owners, or housing builders) default. For loan guarantees, the Department must pay the amount of outstanding principal guaranteed.

## Note 14. Environmental and Disposal Liabilities

As of September 30 (amounts in millions)	2007			2006
	Current Liability	Noncurrent Liability	Total	Total

Under Secretary of Defense—Operations and Maintenance—Other Defense Organizations	0.2	0.0
Navy estimate for disposal of polychlorinated biphenyls transformers	1.0	0.0
Total	742.9	781.4
Base Realignment and Closure (BRAC)—Other		
Army unliquidated obligations associated with cleanup contracts at BRAC installations	0.0	149.2
Total	0.0	149.2
Environmental Disposal for Weapons Systems Program—Other		
Navy Spent Nuclear Fuel	3,237.4	3,237.4
Total	\$ 3,237.4	\$ 3,237.4

Other Accrued Environmental Liabilities, Active Installations, Other primarily consists of remediation related to FUSRAP. The USACE is responsible for FUSRAP, which remediates radiological contamination from the Department of Energy's U.S. Atomic Energy and Weapons Program.

Environmental Disposal for Weapons Systems Programs, Other represents spent nuclear fuel, which is used fuel removed from the nuclear reactors of nuclear-powered ships and submarines. The estimate includes shipping, processing, and storing spent nuclear fuel.

Environmental Disclosures		
As of September 30	2007	2006
(amounts in millions)		
A. The unrecognized portion of the estimated total cleanup costs associated with General Property, Plant, and Equipment.	\$ 1,589.1	\$ 1,527.4
B. Changes in total cleanup costs due to changes in laws, regulations, and/or technology.	(12.7)	(44.9)
C. Portion of the changes in estimated costs due to changes in laws and technology that is related to prior periods.	\$ (4.4)	\$ 0.0

Environmental Disclosures – Line A represents the unrecognized costs associated with General Property, Plant, and Equipment (PP&E). The unrecognized portion of the estimated total cleanup costs is primarily associated with Non-Defense Environmental Restoration Program (DERP), such as nuclear-powered carriers and submarines, conventional ships, spent nuclear fuel, and landfills. Not all components of the Department disclose the unrecognized portion of the estimated cleanup costs associated with General PP&E. The Department is implementing procedures to address this deficiency.

Environmental Disclosures – Line B represents the amount of changes in total cleanup costs due to changes in laws, regulations, and/or technology. Not all components of the Department disclose changes in total cleanup costs due to changes in laws, regulations, and/or technology. The Department is implementing procedures to address this deficiency.

Environmental Disclosures – Line C represents the portion of changes in estimated costs due to changes in laws and technology that is related to prior periods. Not all components of the Department disclose the amount of change in estimates for costs due to changes in laws and technology relating to prior periods. The Department is implementing procedures to address this deficiency.

## **Other Disclosures**

### **Types of Environmental Liabilities and Disposal Liabilities Identified**

The Department has cleanup requirements for DERP sites at active installations, BRAC installations, Formerly Used Defense Sites, sites at active installations that are not covered by DERP, weapons systems programs, and chemical weapons disposal programs. The weapons systems programs consists of chemical weapons disposal, nuclear powered aircraft carriers, nuclear powered submarines, and other nuclear ships. All cleanup is done in coordination with regulatory agencies, other responsible parties, and current property owners.

### **Applicable Laws and Regulations for Cleanup Requirements**

The Department is required to clean up contamination resulting from past waste disposal practices, leaks, spills, and other past activity that created a public health or environmental risk. The Department accomplishes this effort in coordination with regulatory agencies and, if applicable, other responsible parties and current property owners. The Department is also required to recognize closure and post-closure costs for its General PP&E and environmental corrective action costs for current operations. Each of the Department's major reporting entities is responsible for tracking and reporting all required environmental information related to environmental restoration costs, other accrued environmental costs, disposal costs of weapons systems, and environmental costs related to BRAC actions that have taken place.

The Department follows the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and the Superfund Amendment and Reauthorization Act to clean up DERP-eligible contamination. Contamination clean up that is not eligible for DERP is performed in accordance with the Resource Conservation and Recovery Act (RCRA) or other applicable federal or state laws. The CERCLA and RCRA require the Department to clean up contamination in coordination with regulatory agencies, current owners of property damaged by the Department, and third parties that have a partial responsibility for the environmental restoration. Failure to comply with agreements and legal mandates will put the Department at risk of incurring fines and penalties.

The cleanup requirements for nuclear-powered aircraft carriers, submarines, and other nuclear ships are based on laws that affect the Department's conduct of environmental policy and regulations. The Atomic Energy Act of 1954, as amended, assures the proper management of source, special nuclear, and byproduct materiel. As in all cases with nuclear power, the Department coordinates actions with the Department of Energy. The Nuclear Waste Policy Act of 1982 requires all owners and generators of high-level nuclear waste and spent nuclear fuel to pay their respective shares of the full cost of the program. Finally, the Low Level Radioactive Waste Policy Amendments Act of 1986 provides for the safe and efficient management of low-level radioactive waste.

The Chemical Weapons Disposal Program is based on FY 1986 National Defense Authorization Act (PL 99-145, as amended by subsequent acts) that directed the Department to destroy the unitary chemical stockpile by April 29, 2004. The current guidelines for destruction are based on the Chemical Weapons Convention Treaty. The United States ratified the Treaty in April 1997, requiring the stockpile of chemical weapons to be destroyed by April 2007, according to the terms outlined. The Army, as Executive Agent within the Department, provides policy, direction, and oversight for both the Chemical Stockpile Program and the Nonstockpile Chemical Materiel Project. As such, the Army is responsible for the safe and economical disposal of the U.S. stockpile of lethal and incapacitating chemical warfare agents and munitions.

### **Methods for Assigning Total Cleanup Costs to Current Operating Periods**

The Department uses engineering estimates and independently validates models to estimate environmental costs. The models are contained within the Remedial Action Cost Engineering Requirements and the Normalization of Data System. The Department validates the models in accordance with DoD Instruction 5000.61 and primarily uses the models to estimate the liabilities based on data received during a preliminary assessment and initial site investigation. The Department primarily uses engineering estimates after obtaining extensive data during the remedial investigation/feasibility phase of the environmental project.

Once the environmental cost estimates are complete, the Department complies with accounting standards to assign costs to current operating periods. The Department has already expensed the costs for cleanup associated with General PP&E placed into service prior to October 1, 1997, unless the costs are intended to be recovered through user charges. If the costs are recovered through user charges, then the Department expensed cleanup costs associated with that portion of the asset life that had passed since the General PP&E was placed into service, and is systematically recognizing the remaining cost over the remaining life of the asset.

For General PP&E placed into service after September 30, 1997, the Department expenses associated environmental costs systematically over the life of the asset using two methods: physical capacity for operating landfills, and life expectancy in years for all other assets. The Department expenses the full cost to clean up contamination for Stewardship PP&E at the time the asset is placed into service.

### **Nature of Estimates and the Disclosure of Information Regarding Possible Changes due to Inflation, Deflation, Technology, or Applicable Laws and Regulations**

The Department had changes in estimates resulting from overlooked or previously unknown contaminants, reestimation based on different assumptions, and lessons learned. Environmental liabilities may change in the future due to changes in laws and regulation, changes in agreements with regulatory agencies, and advances in technology.

### **Uncertainty Regarding the Accounting Estimates Used to Calculate the Reported Environmental Liabilities**

The environmental liabilities for the Department are based on accounting estimates, which require certain judgments and assumptions that are reasonable, based upon available information at the time the estimates are calculated. The actual results may materially vary from the accounting estimates if agreements with regulatory agencies require remediation to a different degree than anticipated when calculating the estimates. The liabilities can be further impacted if investigation of the environmental sites reveals contamination levels that differ from the estimate parameters.

The Army has a liability to take environmental restoration/corrective action for buried chemical munitions and agents, which they are unable to estimate at this time because the extent of the buried chemical munitions and agents is not known. The USACE is also unable to provide a complete estimate for the FUSRAP. The USACE has ongoing studies and will update its estimate as additional liabilities are identified. In addition, not all components of the Department recognize environmental liabilities associated with General PP&E due to process and system limitations.

The Department is in the process of determining the extent of the liabilities at installations that are realigning or closing as a result of recent BRAC requirements, in particular those liabilities associated with unexploded ordnance on training ranges. In addition, the Department has the potential to incur costs for restoration initiatives in conjunction with returning overseas Defense facilities to host nations. The Department is unable to provide a reasonable estimate at this time because the extent of required restoration is not known.

## Note 15. Other Liabilities

As of September 30 (amounts in millions)	2007			2006 Restated
	Current Liability	Noncurrent Liability	Total	Total
Intragovernmental				
Advances from Others	\$ 308.9	\$ 0.0	\$ 308.9	\$ 448.8

Excess/Obsolete Structures	76.0	587.0	663.0	685.6
Conventional Munitions Disposal	0.0	1,284.1	1,284.1	1,217.8
Accrued Unfunded Annual Leave	8,708.2	0.0	8,708.2	9,403.9
Capital Lease Liability	17.8	165.7	183.5	226.1
Contract Holdbacks	827.6	0.0	827.6	747.0
Employer Contribution & Payroll Taxes Payable	1,565.9	0.0	1,565.9	1,226.8
Contingent Liabilities	2,984.2	2,250.1	5,234.3	5,204.1
Other Liabilities	781.3	4.0	785.3	5,791.8
Total Nonfederal Other Liabilities	52,649.8	4,553.9	57,203.7	31,566.1
Total Other Liabilities	\$ 61,846.7	\$ 6,858.0	\$ 68,704.7	\$ 44,765.8

Intragovernmental Custodial Liabilities is primarily comprised of accounts receivable for cancelled appropriations and interest, penalties, fines, and administrative fees from the public. The Department generally cannot use the collections and must distribute them to the U.S. Treasury. The Department has specific statutory authority to retain collections from certain cancelled year accounts receivable as entity assets.

Intragovernmental Other Liabilities is primarily comprised of other unfunded employment related liabilities.

Contingent Liabilities includes \$1.7 billion in estimated future contract financing payments. In accordance with contract terms, specific rights to the contractors' work vests with the Government when a specific type of contract financing payment is made. This action protects taxpayer funds in the event of contract nonperformance. These rights should not be misconstrued as rights of ownership. The Department is under no obligation to pay contractors for amounts greater than the amounts authorized in contracts until delivery and Government acceptance. Due to the probability the contractors will complete their efforts and deliver satisfactory products, and because the amount of potential future payments are estimable, the Department has recognized a contingent liability for estimated future payments which are conditional pending deliver and Government acceptance.

Nonfederal Other Liabilities consists primarily of estimated accruals for work in process by contractors in support of depot maintenance activities.

The balance in Nonfederal Other Liabilities includes \$29.2 billion that the Department is executing on behalf of the Executive Office of the President. These amounts do not represent liabilities of the Department.

Capital Lease Liability

## Note 16. Commitments and Contingencies

### Legal Contingencies

The Department is a party in various administrative proceedings and legal actions related to claims for environmental damage, equal opportunity matters, and contractual bid protests. The Department has accrued contingent liabilities for legal actions where the Office of General Counsel (OGC) considers an adverse decision probable and the amount of loss measurable. In the event of an adverse judgment against the Government, some of the liabilities may be payable from the U.S. Treasury Judgment Fund. The Department records Judgment Fund liabilities in Note 12, "Accounts Payable," and Note 15, "Other Liabilities."

The OGC reported 63 legal actions with individual claims greater than the Department's FY 2007 materiality threshold of \$110.5 million. The total of these 63 actions is approximately \$1.6 trillion. Of this amount, the OGC determined that claims totaling approximately \$15.4 billion are reasonably possible, \$12.9 billion are remote, and \$1.57 trillion unable to determine the probability of loss. The Department also had a number of potential claims that individually did not meet the Department's materiality threshold, but did meet the individual Components' thresholds. These claims are disclosed in the Components' financial statements.

### Other Commitments and Contingencies

Undelivered orders for open (unfilled or unreconciled) contracts citing cancelled appropriations, for which the Department may incur a contractual commitment for payment, total \$1.2 billion.

The Department is a party in numerous individual contracts that contain clauses, such as price escalation, award fee payments, or dispute resolution, that may result in a future outflow of funds if contract terms are satisfied. Currently, the Department has limited automated system processes by which it captures or assesses these potential contingent liabilities.

## Note 17. Military Retirement and Other Federal Employment Benefits

As of September 30  (amounts in millions)	2007				2006
	Present Value of Benefits	Assumed Interest Rate (%)	(Less: Assets Available to Pay Benefits)	Unfunded Liability	Present Value of Benefits
Pension and Health Actuarial Benefits

Actuarial Cost Method Used: Aggregate entry-age normal method

Assumptions: See below

Market Value of Investments in Market-based and Marketable Securities: \$324.8 billion

### Military Retirement Pensions

The Military Retirement Fund (MRF) is a defined benefit plan authorized by Public Law (P.L.) 98-94 to provide funds used to pay annuities and pensions to retired military personnel and their survivors. The Board approves the long-term economic assumptions for inflation, salary, and interest. The actuaries calculate the actuarial liabilities annually using economic assumptions and actual experience (e.g., mortality and retirement rates). Due to reporting deadlines, the current year actuarial present value of projected plan benefits rolls forward from the prior year's valuation results. The Department used the following assumptions in calculating the FY 2007 roll-forward amount.

	<u>Inflation</u>	<u>Salary</u>	<u>Interest</u>
Fiscal Year 2007	3.3% (actual)	2.2% (actual)	6.0%
Fiscal Year 2008	2.3% (estimated)	3.5% (estimated)	6.0%
Long-Term	3.0%	3.75%	6.0%

Historically, the initial unfunded liability of the program was being amortized over a 50-year period. Effective FY 2008, the initial unfunded liability will be paid over a 42-year period to ensure the annual payments cover the interest on the unfunded actuarial liability, with the last payment expected to be made October 1, 2025. All subsequent gains and losses experienced by the system are amortized over a 30-year period.

<u>Change in MRF Actuarial Liability</u>	<u>(Amounts in billions)</u>
Actuarial Liability as of 9/30/06	\$963.7
Expected Normal Cost for FY 2007	17.7
Plan Amendment Liability	1.5
Assumption Change Liability	26.5
Expected Benefit Payments for FY 2007	(43.5)
Interest Cost for FY 2007	57.1
Actuarial (gains)/losses due to changes in trend assumptions	2.2
Actuarial Liability as of 09/30/07	<u>\$1,025.3</u>
<b>Change in Actuarial Liability</b>	<b>\$61.6</b>

*Actuarial Cost Method Used: Aggregate entry-age normal method.*

*Market Value of Investments in Market-Based and Marketable Securities: \$215.0 billion*

*Assumed Interest Rate: 6.0%*

### **Military Retirement Health Benefits (MRHB)**

The MRHB are post-retirement benefits the Department provides to non-Medicare-eligible military retirees and other eligible beneficiaries, through private sector health care providers and Department Medical Treatment Facilities. The Department used the following assumptions in calculating the FY 2007 actuarial liability.

<u>Medical Trend</u>	<u>FY 2006 – FY 2007</u>	<u>Ultimate Rate FY 2031</u>
Medicare Inpatient	6.74%	6.25%
Medicare Outpatient	6.54%	6.25%
Medicare Prescriptions (Direct Care)	6.25%	6.25%
Medicare Prescriptions (Purchased Care)	6.25%	6.25%
Non-Medicare Inpatient (Direct Care)	6.25%	6.25%
Non-Medicare Outpatient (Direct Care)	6.25%	6.25%
Non-Medicare Prescriptions (Direct Care)	6.25%	6.25%
Non-Medicare Inpatient (Purchased Care)	6.25%	6.25%
Non-Medicare Outpatient (Purchased Care)	9.48%	6.25%
Non-Medicare Prescriptions (Purchased Care)	9.84%	6.25%

<u>Change in MRHB Actuarial Liability</u>	<u>(Amounts in billions)</u>
Actuarial Liability as of 09/30/06 (Department preMedicare + all Uniformed services Medicare cost-basis effect)	\$299.2
Expected Normal Cost for FY 2007	\$10.0
Expected Benefit Payments for FY 2007	(\$10.4)
Interest Cost for FY 2007	\$19.0
Actuarial (gains)/losses due to other factors	(\$11.9)
Actuarial (gains)/losses due to changes in trend assumptions	\$11.9
Actuarial Liability as of 09/30/07 (Department preMedicare + all Uniformed Services Medicare cost-basis effect)	<u>\$317.3</u>
<b>Change in Actuarial Liability</b>	<b>\$18.1</b>

*Actuarial Cost Method Used: Aggregate Entry-Age Normal Method*

*Assumed Interest Rate: 6.0%*

## Medicare-Eligible Retiree Health Care Fund (MERHCF) Benefits

In accordance with P.L. 106-398, the MERHCF accumulates funds to finance the health care program liabilities of Medicare-eligible retirees for all the Uniformed Services and specific Medicare-eligible beneficiaries. The Board approves the long-term assumptions for medical trends and interest. The actuaries calculate the actuarial liabilities annually using actual experience (e.g., mortality and retirement rates, direct care costs, purchased care). Due to reporting deadlines, the current year actuarial present value of projected plan benefits rolls forward from the prior year's results. The Department used the following assumptions in calculating the FY 2007 roll-forward amount.

<u>Medical Trend</u>	<u>FY 2006 – FY 2007</u>	<u>Ultimate Rate FY 2031</u>
Medicare Inpatient	6.74%	6.25%
Medicare Outpatient	6.54%	6.25%
Medicare Prescriptions (Direct Care)	6.25%	6.25%
Medicare Prescriptions (Purchased Care)	10.95%	6.25%

<u>Changes in MERHCF Actuarial Liability</u>	<u>(Amounts in billions)</u>
Actuarial Liability as of 09/30/06 (all Uniformed Services Medicare)	\$538.0
Expected Normal Cost for FY 2007	10.8
Expected Benefit Payments for FY 2007	(8.5)
Interest Cost for FY 2007	34.0
Actuarial (gains)/losses due to other factors	(4.8)
Actuarial (gains)/losses due to changes in trend assumptions	(53.1)
Actuarial Liability as of 09/30/07 (all Uniformed Services Medicare)	<u>\$516.5</u>
<b>Change in Actuarial Liability</b>	<b>(\$21.5)</b>

*Actuarial Cost Method Used for MERHCF Liability: Aggregate Entry-Age Normal*  
*Market Value of Investments in Market-Based and Marketable Securities: \$107.8 billion*  
*Assumed Interest Rate: 6.0%*

The MERHCF liability includes Medicare liabilities for all Uniformed Services. The \$516.5 billion liability includes \$505.1 billion for the Department, \$10.2 billion for the Coast Guard, \$1.1 billion for the Public Health Service and \$72.8 million for National Oceanic and Atmospheric Association (NOAA). The FY 2007 contributions from each of the services were: \$11.2 billion by the Department, \$278.7 million by the Coast Guard, \$36.3 million by the Public Health Service, and \$1.8 million by NOAA.

## Federal Employees Compensation Act (FECA)

The Department of Labor (DOL) determines the liability for future workers' compensation benefits, which includes the expected liability for death, disability, medical, and miscellaneous costs for approved compensation cases, plus a component for incurred but not reported claims. The liability is determined annually using historical benefit payment patterns related to a specific incurred period to predict the final payment related to that period. Consistent with past practice, these projected annual benefit payments have been discounted to present value using the Office of Management and Budget's economic assumptions for 10-year U.S. Treasury notes and bonds. A 4.93% interest rate was assumed for year one and 5.08% was assumed for year two and thereafter.

The DOL calculates this liability using wage inflation factors (cost of living adjustments or COLA) and medical inflation factors (consumer price index medical or CPIM). The actual rates for these factors for charge back year (CBY) 2007 were also used to adjust the methodology's historical payments to current year constant dollars. The compensation COLAs and CPIMs used in the projections for various charge back years were as follows.

<u>CBY</u>	<u>COLA</u>	<u>CPIM</u>
2007	2.63%	3.74%
2008	2.90%	4.04%
2009	2.47%	4.00%
2010	2.37%	3.94%
2011+	2.30%	3.94%

The model's resulting projections were analyzed to ensure the estimates were reliable. The analysis was based on four tests: (1) a sensitivity analysis of the model of economic assumptions, (2) a comparison of the percentage change in the liability amount by agency to the percentage change in the actual incremental payments, (3) a comparison of the incremental paid losses (the medical component in particular) in CBY 2007 (by injury cohort) to the average pattern observed during the prior three charge back years, and (4) a comparison of the estimated liability per case in the 2007 projection to the average pattern for the projections for the most recent three years.

### **Voluntary Separation Incentive (VSI) Program**

The P.L. 102-190 established the VSI program to reduce the number of military personnel on active duty. The VSI Board of Actuaries approved the assumed annual interest rate of 4.5% used to calculate the actuarial liability. Since the VSI program is no longer offered, the actuarial liability is expected to continue to decrease with benefit outlays and increase with interest cost. The liability is calculated annually at the present value of all remaining payments.

Market Value of Investments in Market-based and Marketable Securities: \$573.1 million

### **DoD Education Benefits Fund (EBF)**

The P.L. 98-525 established the EBF program to recruit and retain military members and aid in the readjustment of military members to civilian life. The EBF Board of Actuaries approved the assumed interest rate of 5% used to calculate the actuarial liability.

Market Value of Investments in Market-based and Marketable Securities: \$1.4 billion

### **Other Federal Employment Benefits**

Other Federal Employment Benefits primarily consists of accrued pensions and annuities and an estimated liability for Incurred But Not Reported medical claims not processed prior to fiscal year end.

## **Note 18. General Disclosures Related to the Statement of Net Cost**

Intragovernmental Costs and Exchange Revenue		
As of September 30	2007	2006 Restated
(amounts in millions)		
Intragovernmental Costs	\$ 27,266.6	\$ 31,990.6
Public Costs	640,871.8	602,553.4
Total Costs	668,138.4	634,544.0
Intragovernmental Earned Revenue	(20,465.9)	(24,327.1)
Public Earned Revenue	(25,220.5)	(24,168.6)
Total Earned Revenue	(45,686.4)	(48,495.7)
Net Cost of Operations	\$ 622,452.0	\$ 586,048.3

The Statement of Net Cost (SNC) represents the net cost of programs and organizations of the Federal Government supported by appropriations or other means. The intent of the SNC is to provide gross and net cost information related to the amount of output or outcome for a given program or organization administered by a responsible reporting entity. The Department's current processes and systems do not capture and report accumulated costs for major programs based upon the performance measures as required by the Government Performance and Results Act. The Department is in the process of reviewing available data and developing a cost reporting methodology as required by the Statement of Federal Financial Accounting Standard No. 4, "Managerial Cost Accounting Concepts and Standards for the Federal Government."

Intragovernmental costs and revenues represent transactions made between two reporting entities within the Federal Government. Public costs and revenues are exchange transactions made between the reporting entity and a nonfederal entity.

The Department's systems do not track intragovernmental transactions by customer at the transaction level. Buyer-side expenses are adjusted to agree with internal seller-side revenues. Expenses are generally adjusted by reclassifying amounts between federal and nonfederal expenses.

The SNC presents information based on budgetary obligation, disbursement, and collection transactions. Amounts are adjusted for accruals based on data from nonfinancial feeder systems for major items such as payroll expenses, accounts payable, and environmental liabilities. The General Fund data is generally derived from budgetary transactions (obligations, disbursements, and collections) from nonfinancial systems, and accruals made for major items. While Working Capital Funds generally record transactions on an accrual basis, the systems do not always capture actual costs in a timely manner.

The majority of the Department's accounting systems do not capture information relative to heritage assets separately and distinctly from normal operations. Where it was able to identify the cost of acquiring, constructing, improving, reconstructing or renovating heritage assets, the Department has identified \$2.0 million for the fiscal year.

## Note 19. Disclosures Related to the Statement of Changes in Net Position

As of September 30 (amounts in millions)	2007		2006 Restated	
	Cumulative Results of Operations	Unexpended Appropriations	Cumulative Results of Operations	Unexpended Appropriations
Prior Period Adjustments Increases (Decreases) to Net Position Beginning Balance				
Changes in Accounting Standards	\$ (4,230.9)	\$ 3,745.5	\$ 0.0	\$ 0.0
Errors and Omissions in Prior Year Accounting Reports	0.0	0.0	(8,034.3)	(0.5)
Total Prior Period Adjustments	(4,230.9)	3,745.5	(8,034.3)	(0.5)
Imputed Financing				
Civilian CSRS/FERS Retirement	1,429.4	0.0	1,553.8	0.0
Civilian Health	2,784.7	0.0	2,646.5	0.0
Civilian Life Insurance	8.4	0.0	26.1	0.0
Judgment Fund	198.8	0.0	183.2	0.0
Total Imputed Financing	\$ 4,421.3	\$ 0.0	\$ 4,409.6	\$ 0.0

The Department recognized a net prior period adjustment of (\$485.4) million in FY 2007 and restated cumulative results of operations by (\$4.2) billion and unexpended appropriations by \$3.7 billion. The adjustment relates to a change in reporting parent/child allocation transfers, and is presented as a change in accounting principle. The change affects the Balance Sheet and the Statement of Changes in Net Position. Parent/child reporting is intended to consolidate the complete financial reporting of delegated activities and funds within the parent's financial statements for overall performance reporting. In accordance with Office of Management and Budget (OMB) Circular A-136, "Financial Reporting Requirements," the Department, as the parent agency, reports the financial activity carried out by the child agencies who received transfer appropriations from the Department. When the Department performs as the child, it does not report any information relating to transfer appropriations received from other agencies except for Treasury-Managed Trust funds and funds for which the Executive Office of the President (EOP) is the parent. The OMB Circular A-136 makes exceptions for these transfer appropriations. The Department includes transfer appropriations received from the EOP whereby the EOP is the parent. The EOP delegates authority to the Department for foreign military sales, and the Department reports the related activity in its financial statements on behalf of the EOP.

Contributions to the Office of Personnel Management (OPM) do not fully cover the Government's cost to provide benefits for employees covered by the Civil Service Retirement System, the Federal Employees' Retirement System, the Federal Employees' Health Benefits program, and the Federal Employees' Group Life Insurance program. An imputed cost is recognized as the difference between the Government's cost of providing these benefits to employees and the Department's contributions. The OPM provides cost factors for the computation of imputed financing costs, and these estimates are included in the Department's financial statements.

Other Financing Sources, Other consists primarily of adjustments to reconcile budgetary and proprietary trial balances. Due to financial system limitations, the Department adjusts for these unreconciled differences.

Unexpended Appropriations, Budgetary Financing Sources, Other Adjustments is comprised of rescissions, capital transfers, and canceling appropriations.

In the Statement of Changes in Net Position (SCNP), offsetting balances for intraDepartmental activity between Earmarked Funds and All Other Funds is reported on the same lines. The Eliminations column contains all appropriate elimination entries, which net to zero within each respective line, except for intraentity imputed financing costs.

Earmarked Cumulative Results of Operations ending balance on the SCNP does not agree with the Earmarked Cumulative Results reported on the Balance Sheet because the cumulative results on the Balance Sheet are presented net of eliminations.

Appropriations on the Statement of Budgetary Resources (SBR) exceed Appropriations Received on the SCNP by \$104.1 billion. The SCNP recognizes appropriations received by the Military Departments and Defense Agencies totaling \$70.4 billion which are additionally recognized on the SBR as appropriated receipts in trust and special funds. Investments in trust and special funds accumulate interest earnings; the interest earnings comprise most of the remaining difference of \$33.7 billion, which is recognized only on the SBR.

## Note 20. Disclosures Related to the Statement of Budgetary Resources

As of September 30	2007	2006 Restated
(amounts in millions)		
Net Amount Budgetary Resources Obligated for Undelivered Orders at the End of the Period	\$ 350,761.4	\$ 297,272.1
Available Borrowing and Contract Authority at the End of the Period	\$ 0.0	\$ 29,488.9

### Reconciliation Differences

The Department modified this note to more accurately report the remaining available balance of borrowing and contract authority. Previously, the Department reported the amount of borrowing and contract authority used, but not the amount replaced by reimbursement or appropriation.

Appropriations Received on the Statement of Budgetary Resources (SBR) exceed Appropriations Received on the Statement of Changes in Net Position by \$104.1 billion. In accordance with Office of Management and Budget (OMB) guidance, appropriations received by the Military Departments and Defense Agencies totaling \$70.4 billion are subsequently recognized a second time on the SBR as appropriations transferred into trust and special funds. Actual and anticipated earnings in trust and special funds comprise the balance of the difference.

### Permanent Indefinite Appropriations

The Department of Defense (DoD) received the following permanent indefinite appropriations:

- Department of the Army General Gift Fund (10 USC 2601(b)(1))
- Department of the Navy General Gift Fund (10 USC 2601(b)(2))
- Department of the Air Force General Gift Fund (10 USC 2601(b)(3))

- Foreign National Employees Separation Pay Account, Defense (10 USC 1581)
- United States Naval Academy Gift and Museum Fund (10 USC 6973-4)
- Ship Stores Profits, Navy (10 USC 7220, 31 USC 1321)
- Midshipmen's Store (10 USC 6971B)
- Burdensharing Contributions Account (10 USC 2350(j))
- Forest Program (10 USC 2665)
- Department of Defense Base Closure Account (10 USC 2687)
- Medicare Eligible Retiree Health Care Fund (MERHCF) (10 USC 1111)
- Military Retirement Fund (MRF) (10 USC 1461)
- Education Benefits Fund (10 USC 2006)
- Reserve Mobilization Income Insurance Fund (10 USC 12528)
- Host Nation Support for U.S. Relocation Activities (10 USC 2350(k))
- National Defense Sealift Fund (10 USC 2218)
- Environmental Restoration, Navy (10 USC 2702)
- Hydraulic Mining Debris Reservoir (33 USC 683)
- Maintenance and Operation of Dams and Other Improvements of Navigable Waters (16 USC 810(a))
- Payments to States (33 USC 701c-3)
- Wildlife Conservation (16 USC 670-670(f))
- Ainsworth Bequest (31 USC 1321)
- Department of Defense Family Housing Improvement Fund (10 USC 2883 (a))
- Department of Defense Military Unaccompanied Housing Improvement Fund (10 USC 2883 (a))

The above permanent indefinite appropriations cover a wide variety of purposes to help the Department accomplish its missions. These purposes include: (1) military retirees health care benefits, retirement and survivor pay, and education benefits for veterans; (2) environmental, coastal, and wildlife habitat restoration, and water resources maintenance; (3) costs associated with the closure or realignment of military installations; (4) relocation of armed forces to a host nation; (5) separation payments for foreign nationals; (6) the construction, purchase, alteration, and conversion of sealift vessels; and (7) upkeep of libraries and museums. (See Note 23 for additional information on earmarked funds.)

In addition to the above, the Executive Office of the President has given the Department authority to execute the funds listed below on its behalf:

- Special Defense Acquisition Fund (22 USC 2795)
- Foreign Military Loans Liquidating Account (22 USC 2764)
- Foreign Military Financing, Direct Loan Financing Account (2 USC 661 (d))
- Military Debt Reduction Financing Account (2 USC 661 (d))
- Advances, Foreign Military Sales (22 USC 2761-2762)

### **Apportionment Categories for Obligations**

The Department reported the following amounts of direct obligations: (1) \$516.3 billion in category A; (2) \$159.9 billion in category B; and (3) \$96.7 billion in exempt from apportionment. The Department reported the following amounts of reimbursable obligations: (1) \$93.0 billion in category A; (2) \$77.9 billion in category B; and (3) \$14.0 million in exempt from apportionment. Category A relates to appropriations for a specific period of time (e.g., Military Personnel appropriation), and category B relates to appropriations for a specific project (e.g., Military Construction appropriation).

### **Other Disclosures**

The President's budget for FY 2009 has not yet been published. The budget is expected to be published on February 4, 2008, and will be available at: <http://www.defenselink.mil/comptroller/defbudget>.

The SBR includes intraentity transactions because the statements are presented as combined.

The Department utilizes borrowing authority for the Military Housing Privatization Initiative, the Armament Retooling and Manufacturing Support Initiative, and the Foreign Military Account Program. Borrowing authority is used in accordance with OMB Circular A-129, "Managing Federal Credit Programs."

The Department operates within the constraints of fiscal law and has no additional legal arrangements affecting the use of unobligated balances.

The Department received additional funding of \$70.0 billion to replenish expenses incurred outside of normal operating expenses. The Department also received an additional \$99.4 billion primarily for U.S. Troop Readiness, Veterans Care, and Hurricane Katrina recovery.

The Department reported a change in obligated balances brought forward of \$29.2 billion, and unobligated balances brought forward of \$1.0 billion, due to stipulations of OMB Circular A-136, "Financial Reporting Requirements." (See Note 1, "Significant Accounting Policies", and Note 25, "Restatements" for details.)

The Department is executing balances of Contract Authority of \$48.0 billion, Permanently not Available of (\$16.6) billion, and Distributed Offsetting Receipts of \$15.8 billion, on behalf of the Executive Office of the President. These amounts do not represent budgetary resources or obligations of the Department.

## Note 21. Reconciliation of Net Cost of Operations to Budget

As of September 30	2007	2006 Restated

Components of the Net Cost of Operations that will not Require or Generate Resources in the Current Period:		
Components Requiring or Generating Resources in Future Period:		
Increase in Annual Leave Liability	1,866.1	7,401.2
Increase in Environmental and Disposal Liability	2,615.0	5,632.5
Upward/Downward Reestimates of Credit Subsidy Expense (+/-)	(103.6)	(35.6)
Increase in Exchange Revenue Receivable from the Public (-)	(23.3)	(47.7)
Other (+/-)	91,873.1	73,776.0
Total Components of Net Cost of Operations that Will Require or Generate Resources in Future Periods	96,227.3	86,726.4
Components not Requiring or Generating Resources:		
Depreciation and Amortization	27,287.0	65,116.2
Revaluation of Assets or Liabilities (+/-)	6,073.3	5,174.4
Other (+/-)		
Trust Fund Exchange Revenue	(39,246.6)	(40,583.4)
Cost of Goods Sold	56,125.0	47,718.4
Operating Material and Supplies Used	30,590.5	10,062.5
Other	(38,076.2)	(12,630.6)
Total Components of Net Cost of Operations that will not Require or Generate Resources	42,753.0	74,857.5
Total Components of Net Cost of Operations that will not Require or Generate Resources in the current period	138,980.3	161,583.9
Net Cost of Operations	\$ 622,452.0	\$ 586,048.3

Beginning 4th Quarter, FY 2007, the Department began presenting the Statement of Financing (SOF) as a note in accordance with OMB Circular A-136. The SOF is no longer considered a basic statement and is now referred to as Reconciliation of Net Cost of Operations to Budget. The reconciliation of the former SOF is now incorporated into Note 21.

Due to the Department's financial system limitations, budgetary data is not in agreement with proprietary expenses and capitalized assets. The difference between budgetary and proprietary data is a previously identified deficiency. The following adjustments (absolute value) were made to balance the Reconciliation of Net Cost of Operations to the Statement of Net Cost (amounts in millions):

Resources That Finance the Acquisition of Assets	\$1,862.0
Other - Other Components Not Requiring or Generating Resources	55.5
Revaluation of Assets or Liabilities	<u>14.3</u>
Total Amount	\$1,931.8

The following Reconciliation of Net Cost of Operations to Budget lines are presented as combined instead of consolidated due to intra-agency budgetary transactions not being eliminated:

- Obligations Incurred
- Less: Spending Authority from Offsetting Collections and Recoveries
- Obligations Net of Offsetting Collections and Recoveries
- Less: Offsetting Receipts
- Net Obligations
- Undelivered Orders
- Unfilled Customer Orders

Other Resources – Other and Other Resources or Adjustments to Net Obligated Resources that Do Not Affect Net Cost of Operations – Other primarily consists of nonexchange gains and losses necessary to reconcile the proprietary and budgetary accounts.

Components Requiring or Generating Resources in Future Period - Other primarily consists of future funded expenses for the current year change in actuarial liabilities.

Components not Requiring or Generating Resources - Other primarily consists of other expenses not requiring budgetary resources, cost capitalization offsets, and applied overhead.

Liabilities not covered by budgetary resources on the Balance Sheet total \$1.6 trillion. The amount reported as Components Requiring or Generating Resources in Future Periods in Note 21, the Reconciliation of Net Cost of Operations to Budget, totals \$96.2 billion. The difference of \$1.5 trillion is primarily due to the differing perspectives between the two reports. Liabilities not covered by budgetary resources report the cumulative balance for Balance Sheet liabilities not yet funded whereas as Components Requiring or Generating Resources in Future Periods in Note 21 reflects only the current period changes for all unfunded liabilities.

## Note 22. Disclosures Related to Incidental Custodial Collections

Incidental custodial collections represent miscellaneous receipts, such as collections of fines and penalties, which are deposited directly into the General Fund of the U.S. Treasury. These funds are not available for use by the Department. At the end of each fiscal year the accounts are closed and the balances absorbed by the U.S. Treasury. The Department collected and distributed to the U.S. Treasury \$92.4 million of incidental custodial revenues generated primarily from the collection of fines and penalties.

## Note 23. Earmarked Funds

BALANCE SHEET As of September 30, 2007 (amounts in millions)	Military Retirement Fund	Medicare Eligible Retiree Health Care Fund	Other Earmarked Funds	Eliminations	Total
<b>ASSETS</b>					
Fund balance with Treasury	\$ 20.4	\$ 5.0	\$ 1,961.4	\$ 0.0	\$ 1,986.8

### Other Disclosures

The Statement of Federal Financial Accounting Standards (SFFAS) No. 27, "Identifying and Reporting Earmarked Funds," requires the disclosure of Earmarked Funds separately from All Other Funds on the Statement of Changes in Net Position and Balance Sheet. Funds must meet three criteria to be classified as earmarked: (1) a statute committing use of specifically identified revenues for designated purposes, (2) explicit authority to retain the revenues, and (3) a requirement to account and report on the revenues. The Department's earmarked funds are either special or trust funds and use both receipt and expenditure accounts to report activity to the U.S. Treasury. There have been no changes in legislation during or subsequent to this reporting period that significantly changed the purposes of any of the following funds.

The Total column is shown as consolidated and relates only to Earmarked Funds. The Eliminations column includes eliminations associated with Earmarked Funds and excludes the offsetting eliminations from All Other Funds. This exclusion causes assets to not equal liabilities and net position in the note. However, the amounts in the Total column equal the amounts reported for Earmarked Funds on the Balance Sheet. The SFFAS No. 27 requires the presentation of gross amounts of Earmarked Funds separate from All Other (nonearmarked) Funds. Cumulative Results of Operations ending balances for Earmarked Funds on the Statement of Changes in Net Position do not agree with the Cumulative Results of Operations for Earmarked Funds reported on the Balance Sheet because the Cumulative Results of Operations on the Balance Sheet are presented net of eliminations. The summation for Military Retirement Fund (MRF), Medicare-Eligible Retiree Health Care Fund (MERHCF), and Other Earmarked Funds is equivalent to the gross amount presented on the Statement of Changes in Net Position.

***Military Retirement Fund, 10 United States Code (USC) 1461.*** The MRF accumulates funds in order to finance, on an actuarially sound basis, the liabilities of the Department's military retirement and survivor benefit programs. Financing sources for the MRF are interest earnings on Fund assets, monthly Department contributions, and annual contributions from the U.S. Treasury. The monthly Department contributions are calculated as a percentage of basic pay. The contribution from the U.S. Treasury represents the amortization of the unfunded liability for service performed prior to October 1, 1984, plus the amortization of actuarial gains and losses that have arisen since then. The U.S. Treasury annual contribution also includes the normal cost amount for the concurrent receipt provisions of the FY 2004 National Defense Authorization Act.

***Medicare-Eligible Retiree Health Care Fund, 10 USC 1111.*** The MERHCF accumulates funds to finance, on an actuarially sound basis, liabilities of the Department and the uniformed services health care programs for qualified Medicare-eligible beneficiaries. Financing sources for MERHCF are provided primarily through an annual actuarial liability payment from the U.S. Treasury, annual contributions from the Military Services and other Uniformed Services (the U.S. Coast Guard, the

National Oceanic and Atmospheric Administration, and the U.S. Public Health Service), and interest earned from the Fund's investments.

### **Other Earmarked Funds**

**Special Recreation Use Fees, 16 USC 4061-6a note.** The United States Army Corps of Engineers (USACE) is granted the authority to charge and collect fair and equitable Special Recreation Use Fees at campgrounds located at lakes or reservoirs that are under the jurisdiction of the USACE. Types of allowable fees include daily use fees, admission fees, recreational fees, annual pass fees, and other permit type fees. The receipts are used for the operation and maintenance of the recreational sites.

**Hydraulic Mining in California, Debris, 33 USC 683.** Operators of hydraulic mines through which debris flows in part or in whole to a body restrained by a dam or other work erected by the California Debris Commission are required to pay an annual tax as determined by the Commission. Taxes imposed under this code are collected and then expended under the supervision of the USACE and the direction of the Department of the Army. The funds are used for repayment of funds advanced by the federal government or other agency for construction, restraining works, settling reservoirs, and maintenance.

**Payments to States, Flood Control Act of 1954, 33 USC 701c-3.** Seventy-five percent of all funds received and deposited from the leasing of lands acquired by the United States for flood control, navigation, and allied purposes (including the development of hydroelectric power) are returned to the state in which the property is located. The USACE collects lease receipts into a receipt account. Funds are appropriated for the amount of receipts the following fiscal year. The funds may be expended by the states for the benefit of public schools and public roads of the counties in which such property is situated, or for defraying any of the expenses of county government.

**Maintenance and Operation of Dams and Other Improvements of Navigable Waters, 16 USC 803(f) and 810.** The USC states, "All proceeds from any Indian reservation shall be placed to the credit of the Indians of such reservation." However, the USC also states, "...all other charges arising from licenses..." except those charges established by the Federal Power Commission, now known as the Federal Energy Regulatory Commission, for purpose of administrative reimbursement shall be paid to the U.S. Treasury from which specific allocations will be made. From the specific allocations, 50% of charges from "all other licenses" is reserved and appropriated as a special fund in the U.S. Treasury to be expended under the direction of the Secretary of the Army in the maintenance, operation, and improvement of dams and other navigation structures that are owned by the United States or in construction, maintenance, or operation of headwater or other improvements of navigable waters of the United States.

**Fund for Non-Federal Use of Disposal Facilities (for dredged material), 33 USC 2326.** Any dredged material disposal facility under the jurisdiction of, or managed by, the Secretary of the Army (Secretary) may be used by a nonfederal interest if the Secretary determines that such use will not reduce the availability of the facility for project purposes. Fees may be imposed to recover capital, operation, and maintenance costs associated with such use. Any monies received through collection of fees under this law shall be available to, and used by, the Secretary for the operation and maintenance of the disposal facility from which the fees were collected.

**South Dakota Terrestrial Wildlife Habitat Restoration Trust Fund, Public Law 106-53 Sec. 603.** Yearly transfers are made from the General Fund of the U.S. Treasury to the Trust Fund for investment purposes. Investment activity is managed by the Bureau of the Public Debt (BPD). The BPD purchases and redeems nonmarketable market-based securities. Investments include one-day certificates, bonds, and notes. When the fund reaches the aggregate amount of \$108 million, withdrawals may be made by the USACE for payment to the State of South Dakota. The state uses the payments to fund the annually scheduled work for wildlife habitat restoration.

**Coastal Wetlands Restoration Trust Fund and Coastal Wetlands Planning, Protection and Restoration Act, 16 USC 3951-3956.** The USACE, (along with the Environmental Protection Agency, and the Fish and Wildlife Service) is granted the authority to work with the State of Louisiana to develop, review, evaluate, and approve a plan to achieve a goal of "no net loss of wetlands" in coastal Louisiana. The USACE is also responsible for allocating funds among the named task force members. Federal contributions are established at 75% of project costs or 85% if the State has an approved Coastal Wetlands Conservation Plan.

**Rivers and Harbors Contributed and Advance Funds, 33 USC 701h, 702f, and 703.** Whenever any state or political subdivision offers to advance funds for a flood control project duly adopted and authorized by law the Secretary of the Army may, in his discretion, receive such funds and expend them in the immediate prosecution of such work. The funding may be used to construct, improve, and maintain levees, water outlets, flood control, debris removal, rectification, and enlargement of river channels, etc. in the course of flood control and river/harbor maintenance.

**Inland Waterways Trust Fund, 26 USC 9506.** This law made the Inland Waterways Trust Fund available for USACE expenditures for navigation, construction, and rehabilitation projects on inland waterways. Collections for excise taxes from the public are made into the Trust Fund. The collections are invested and investment activity is managed by the BPD. The BPD purchases and redeems nonmarketable market-based securities. Investments include one-day certificates, bonds, and notes.

**Harbor Maintenance Trust Fund, 26 USC 9505.** The USACE Civil Works mission is funded by the Energy and Water Developments Appropriations Act. The Water Resources Development Act of 1986 was implemented to cover a portion of USACE operations and maintenance costs for deep draft navigation. The Harbor Maintenance Trust Fund is available for making expenditures to carry out the functions specified in the act and for the payment of all expenses of administration incurred by the U.S. Treasury, USACE, and the Department of Commerce. Collections are made into the Trust Fund from taxes collected from imports, domestics, passengers, and foreign trade. The collections are invested and investment activity is managed by the BPD.

**Foreign National Employees Separation Pay Account Trust Fund, 10 USC 1581.** This fund makes payments from amounts obligated by the Secretary of Defense that remain unexpended for separation pay for foreign national employees of the Department. The foreign national employees' separation pay funded by Foreign Military Sales administrative funds is maintained as a separate fund.

**Defense Commissary Agency Surcharge Trust Fund, 10 USC 2685.** This fund was established as the repository for the surcharge on sales of commissary goods paid for by authorized patrons to finance certain operating expenses and capital purchases of the Commissary System, which are precluded by law from being paid with appropriated funds. Most Surcharge revenue is generated by the 5% surcharge applied to each sale. These funds may be used to pay for commissary store-related information technology investments, to purchase commissary equipment, to finance advance design modifications to prior year projects, for both minor and major construction projects, and to maintain and repair commissary facilities and equipment.

**Education Benefit Fund, 10 USC 2006.** This fund was established to finance, on an actuarially sound basis, the liabilities of the Department's education benefit programs for current and former active duty, guard, and reserve members of the armed forces, and members of the Coast Guard. Financing sources for the Education Benefit Fund are interest earnings on Fund assets and monthly Department contributions.

**Voluntary Separation Incentive Fund, 10 USC 1175.** This fund was established to finance, on an actuarially sound basis, the liabilities of the Department's incentive program for early separation from military service. Financing sources for the Voluntary Separation Incentive Fund are interest earnings on Fund assets and annual Department contributions.

**Military Housing Privatization Initiative, Public Law 104-106, Statute 186, Section 2801.** The Military Housing Privatization Initiative (MHPI) includes both direct loan and loan guarantee programs, is authorized by the National Defense Authorization Act for FY 1996, and includes a series of authorities that allow the Department to work with the private sector to renovate and build military family housing. The MHPI accelerates the construction of new housing, builds to market standards, and leverages private sector capital with government dollars. The Department provides protection to the private sector partner against specific risks, such as base closure or member deployment.

**Armament Retooling and Manufacturing Support Initiative, 10 USC 4551-4555.** The Armament Retooling and Manufacturing Support Initiative is a loan guarantee program designed to incentivize commercial use of the Army's inactive ammunition plants for businesses willing to locate to a government ammunition production facility. The production capacity of these facilities is greater than current military requirements, however, this capacity may be needed in the future. Revenues from property rental are used to pay for the operation, maintenance and environmental cleanup at the facilities.

## Note 24. Other Disclosures

As of September 30 (amounts in millions)	2007 Asset Category			
	Land and Buildings	Equipment	Other	Total
Entity as Lessee—Operating Leases				
Future Payments Due				
Fiscal Year				
FY 2008	\$ 384.1	\$ 15.7	\$ 113.2	\$ 513.0
FY 2009	366.2	15.1	117.7	499.0
FY 2010	317.7	15.1	122.4	455.2
FY 2011	299.1	15.2	127.3	441.6
FY 2012	279.5	15.2	132.4	427.1
After 5 years	530.2	1.2	137.7	669.1
Total Future Lease Payments Due	\$ 2,176.8	\$ 77.5	\$ 750.7	\$ 3,005.0

## Note 25. Restatements

During the reporting period, material errors were identified or accounting principle changes deemed necessary. As a result, prior year changes have been made retrospectively in accordance with generally accepted accounting principles (GAAP).

### **Correction Due to Change in Allocation Transfer Reporting**

Effective FY 2007, the Office of Management and Budget (OMB) Circular A-136 “Financial Reporting Requirements” changed the reporting of allocation transfers. Due to this change, the Department reports in its basic financial statements the programs it administers on behalf of the Executive Office of the President (EOP) including the Foreign Military Sales (FMS) Program. Previously, the Department recorded the majority of FMS programs as “Other Accompanying Information,” rather than as part of the basic financial statements. The FMS Trust Fund was not part of this change, as it was formerly included in the Department’s financial statements.

Per OMB Circular A-136 Section I.14.2, the cumulative effect of the change on prior periods should be reported as a change in accounting principle, consistent with Statement of Federal Financial Accounting Standards No. 21, “Reporting Corrections of Errors and Changes in Accounting Principles.” Although this is not considered an error, due to the material and pervasive impact, the Department, in coordination with OMB and the U.S. Treasury, restated prior year comparative columns as outlined below:

#### **FY 2006 Balance Sheet** (amounts in billions)

Fund Balance with Treasury	\$1.9
Loans Receivable	<u>3.7</u>
Total Assets	\$5.6
Debt	\$3.3
Other Liabilities	<u>0.4</u>
Total Liabilities	\$3.7
Net Position	\$1.9

**FY 2006 Statement of Net Cost**  
(amounts in billions)

Gross Costs	\$4.8
Less: Earned Revenue	<u>(0.2)</u>
Net Cost of Operations	\$4.6

**Statement of Budgetary Resources**  
(amounts in billions)

<u>Beginning Balance Change for FY 2007:</u>	
Unobligated Balance, Brought Forward	(\$1.0)
Obligated Balance, Brought Forward	\$29.2
<u>Comparative Year Effect for FY 2006:</u>	
Appropriation	\$4.7
Spending Authority from Offsetting Collections	
Earned	
Collected	1.1
Permanently Not Available	<u>(1.1)</u>
Total Budgetary Resources	\$4.7
Obligations	<u>\$4.7</u>
Total Status of Budgetary Resources	\$4.7
Gross Outlays	\$5.2
Less: Offsetting Collections	(1.1)
Distributed Offsetting Receipts	<u>13.8</u>
Net Outlays	\$17.9

Beginning balances were changed to accommodate the proper reporting of the EOP balances in the Department's Statement of Budgetary Resources. The Unobligated Balance, Brought Forward decrease of \$1.0 billion was the result of a decrease of \$1.4 billion for FMS offset by an increase of \$385.2 million in the Army General Fund Iraqi Reconstruction Fund. The Obligated Balance, Brought Forward increase of \$29.2 billion included an increase from FMS of \$25.9 billion and an increase of \$3.5 billion in the Iraqi Reconstruction Fund. The amounts reported as Comparative Year Effect were restatements of prior years.

### **Correction of Error**

Following the current reporting period, the Department discovered an error in the computation of the Distributed Offsetting Receipts reported on the Statement of Budgetary Resources. The Department previously included all of the annual contribution from Treasury for the Military Retirement Fund and should have excluded the concurrent receipts of the normal cost contribution as Distributed Offsetting Receipts. The Department had also included the Military Departments' contributions, the non-DoD employing agency contributions, and the interest receivable for the DoD Medicare-Eligible Retiree Health Care Fund as Distributed Offsetting Receipts. The Department confirmed with OMB and the U.S. Treasury that only specific receipt accounts, and no accrued interest, should be reported as Distributed Offsetting Receipts. Due to the size of the misstatement in FY 2006, the Department restated lines on the Statement of Budgetary Resources and Note 21, "Reconciliation of Net Cost of Operations to Budget," formerly the Statement of Financing. The restatement has no impact on the Department's overall net position. The Department restated the prior year comparative column decreasing Distributed Offsetting Receipts by \$13.8 billion in the Statement of Budgetary Resources. The Reconciliation of Net Cost of Operations to Budget was adjusted by like amount in the Distributed Offsetting Receipts and Trust Fund Exchange Revenue lines, resulting in no change in Net Cost of Operations.

## Required Supplementary Stewardship Information

### Nonfederal Physical Property

Department of Defense Consolidated Nonfederal Physical Property Yearly Investments in State and Local Governments For Fiscal Years 2007 through 2003 (In Millions of Dollars)					
Categories	FY 2007	FY 2006	FY 2005	FY 2004	FY 2003
Transferred Assets:					
National Defense Mission Related	\$ 23.0	\$ 66.5	\$ 70.7	\$ 54.7	\$ 85.0
Federal Mission Related	1,028.0	1,229.0	1,324.0	4,429.0	NR
Funded Assets:					
National Defense Mission Related	2.8	8.5	8.3	18.3	11.3
Total	\$ 1,053.8	\$ 1,304.0	\$ 1,403.0	\$ 4,502.0	\$ 96.3

NR = Not Reported

The Department incurs investments in Nonfederal Physical Property for the purchase, construction, or major renovation of physical property owned by state and local governments, including major additions, alterations, and replacements, the purchase of major equipment, and the purchase or improvement of other physical assets. In addition, Nonfederal Physical Property Investments include federally-owned physical property transferred to state and local governments.

The Department changed its methodology for reporting Nonfederal Physical Property during FY 2007. Investment values included in this report are based on Nonfederal Physical Property outlays (expenditures). Outlays are used because current Department accounting systems are unable to capture and summarize costs in accordance with federal accounting standards.

### Investments in Research and Development

Department of Defense Consolidated Yearly Investments in Research and Development For the Current and Four Preceding Fiscal Years (In Millions of Dollars)					
Categories	FY 2007	FY 2006	FY 2005	FY 2004	FY 2003
Basic Research	\$ 71.1	\$ 157.1	\$ 199.5	\$ 194.6	\$ 516.8
Applied Research	430.2	1,442.5	1,713.1	1,711.2	1,775.7
Development					
Advanced Technology Development	1,052.3	2,308.6	3,096.1	2,761.4	2,445.4
Advanced Component Development and Prototypes	5,217.7	7,232.7	8,745.3	7,278.0	5,569.6
System Development and Demonstration	236.3	515.7	461.7	345.7	1,380.9
Research, Development, Test and Evaluation Management Support	465.2	963.1	1,035.8	997.0	960.2
Operational System Development	340.8	713.4	876.8	1,213.2	1,099.9
Total	\$ 7,813.6	\$ 13,333.1	\$ 16,128.4	\$ 14,501.1	\$ 13,748.5

The Department changed its methodology for reporting Yearly Investments in Research and Development during FY 2007. Investment values included in this report are based on Research and Development (R &D) outlays (expenditures). Outlays are used because current Department accounting systems are unable to capture and summarize costs in accordance with Federal accounting standards. The R&D programs are classified in three categories: Basic Research, Applied Research and Development. The definition for each type of R&D Category and the Development Subcategories are explained below:

- Basic Research is the systematic study to gain knowledge or understanding of the fundamental aspects of phenomena and of observable facts without specific applications, processes, or products in mind. Basic Research involves gathering a fuller knowledge or understanding of the subject under study. Major outputs are scientific studies and research papers.
- Applied Research is the systematic study to gain knowledge or understanding necessary for determining the means by which a recognized and specific need may be met. It is the practical application of such knowledge or understanding for the purpose of meeting a recognized need. This research points toward specific military needs with a view toward developing and evaluating the feasibility and practicability of proposed solutions and determining their parameters. Major outputs are scientific studies, investigations, research papers, hardware components, software codes, and limited construction of, or part of, a weapon system to include nonsystem-specific development efforts.
- Development takes what has been discovered or learned from basic and applied research and uses it to establish technological feasibility and to assess operability, and production capability. Development is comprised of five stages defined below:
  - Advanced Technology Development is the systematic use of the knowledge or understanding gained from research directed toward proof of technological feasibility and assessment of operational and productibility aspects rather than the development of hardware for service use. It employs demonstration activities intended to prove or test a technology or method.
  - Advanced Component Development and Prototypes evaluates integrated technologies in as realistic an operating environment as possible to assess the performance or cost reduction potential of advanced technology. Programs in this phase are generally system specific. Major outputs of hardware and software components, or complete weapon systems, ready for operational and developmental testing and field use.
  - System Development and Demonstration concludes the program or project and prepares it for production. It consists primarily of preproduction efforts, such as logistics and repair studies. Major outputs are weapons systems finalized for complete operational and developmental testing.
  - Research, Development, Test and Evaluation Management Support is support for installations and operations for general research and development use. This category includes costs associated with test ranges, military construction maintenance support for laboratories, operation and maintenance of test aircraft and ships, and studies and analyses in support of the R&D program.
  - Operational Systems Development is concerned with development projects in support of programs or upgrades still in engineering and manufacturing development, which have received approval for production, for which production funds have been budgeted in subsequent fiscal years.

## Required Supplementary Information

### Heritage Assets

Department of Defense Consolidated Heritage Assets For Fiscal Year Ended September 30, 2007					
Categories	Measure Quantity	As of 10/01/06	Additions	Deletions	As of 9/30/07
Buildings and Structures	Each	23,444	1,304	7,631	17,117
Archeological Sites	Site	97,911	992	70,948	27,955
Museums	Each	103	5	5	103
Monuments and Memorials	Each	2,022	47	54	2,015

Heritage Assets are real and personal property with significance in American history due to their architectural, archeological, and cultural value. In FY 2007, the archeological sites reflect those sites identified, evaluated, and determined eligible for or listed on the National Register of Historic Places. The FY 2007 categories are defined as follows:

**Buildings and Structures.** Buildings and structures that are listed on, or eligible for listing on, the National Register of Historic Places, including Multi-Use Heritage Assets.

**Archeological Sites.** Sites that have been identified, evaluated, and determined to be eligible for or are listed on the National Register of Historic Places in accordance with Section 110 of the National Historic Preservation Act.

**Museums.** Buildings, places, or institutions devoted to the acquisition, conservation, study, exhibition, and educational interpretation of objects having scientific, historical, or artistic value.

**Monuments and Memorials.** Sites and structures built to honor and preserve the memory of significant individuals or events in history.

### Stewardship Land

Department of Defense Consolidated Stewardship Land For Fiscal Year Ended September 30, 2007 (Acres in Thousands)				
Land Use	As of 10/01/06	Additions	Deletions	As of 9/30/07
Mission	16,015	1,387	15	17,387
Parks and Historic Sites	1			1
Totals	16,016	1,387	15	17,388

Stewardship Land is land and land rights owned by the Department of Defense but not acquired for, or in connection with, items of General Property, Plant and Equipment. All land provided to the Department from the public domain, or at no cost, regardless of its use is classified as Stewardship Land. Stewardship Land is reported in acres rather than at cost or fair value. The FY 2007 categories are defined as follows:

**Mission.** Stewardship Land is land used for military bases, test and training ranges, or other military mission related functions.

**Parks and Historic Sites.** This category includes battlefields, cemeteries, and parks.

## Real Property Deferred Maintenance

Department of Defense Real Property Deferred Maintenance For Fiscal Year Ended September 30, 2007 (In Millions of Dollars)			
Property Type	Current Fiscal Year (CFY)		
	Plant Replacement Value	Required Work (deferred maintenance)	Percentage
Category 1	\$514,304.5	\$61,634.5	12%
Category 2	\$42,154.0	\$8,881.6	21%
Category 3	\$14,411.3	\$1,503.1	10%

This year, the Department changed its methodology for reporting deferred maintenance. In previous reports, the amount was based upon the Department's Facilities Sustainment Model and represented the annual deferred sustainment (maintenance). This year, the amount is based upon facility Q-ratings found in the Department's real property inventory that represent the cumulative deferred amount for facility restoration and modernization, and thus are significantly larger than previous years. While restoration and modernization is not precisely equivalent to deferred maintenance, the values are generally representative of the magnitude of the deferred maintenance requirements. Over the next year, the Department will be transitioning the Q-ratings to more precisely represent deferred maintenance requirements.

Q-ratings represent work needed to bring a facility to a fully serviceable condition with no repair needs. The reported deferred maintenance is the difference between the facility Q rating and the target Q rating, representing the acceptable operating condition. Acceptable operating condition levels vary by Component within the Department. The low value is the mid-point of the Q-2 rating band, representing deferred work valued at 15% of the facility replacement value. This point equates to the Department minimum goal for average facility condition. The high value is fully serviceable condition, representing a facility with no deferred requirements. The reported deferred maintenance for the Department reflects the mixture of acceptable operating condition values.

Facility Categories are as follows:

- Category 1: Buildings, Structures, and Utilities that are enduring and required to support an ongoing mission including multi-use Heritage Assets
- Category 2: Buildings, Structures, and Utilities that are excess to requirements or planned for replacement or disposal including multi-use Heritage Assets
- Category 3: Buildings, Structures, and Utilities that are Heritage Assets

## Deferred Maintenance of Military Equipment

Depot maintenance requirements for military equipment are developed during the annual budget process. The table below displays the deferred unfunded requirements for the depot maintenance program. The Department Components' FY 2008 Budget Estimates, contain detailed information on each program.

FY 2007	
Military Equipment Type	Unfunded Deferred Requirement (In Millions of Dollars)
Ship	\$136
Aircraft	\$1,225
Combat Vehicles	\$358
Other	\$1,048
Total	\$2,767
